

# KPLUG and Plone

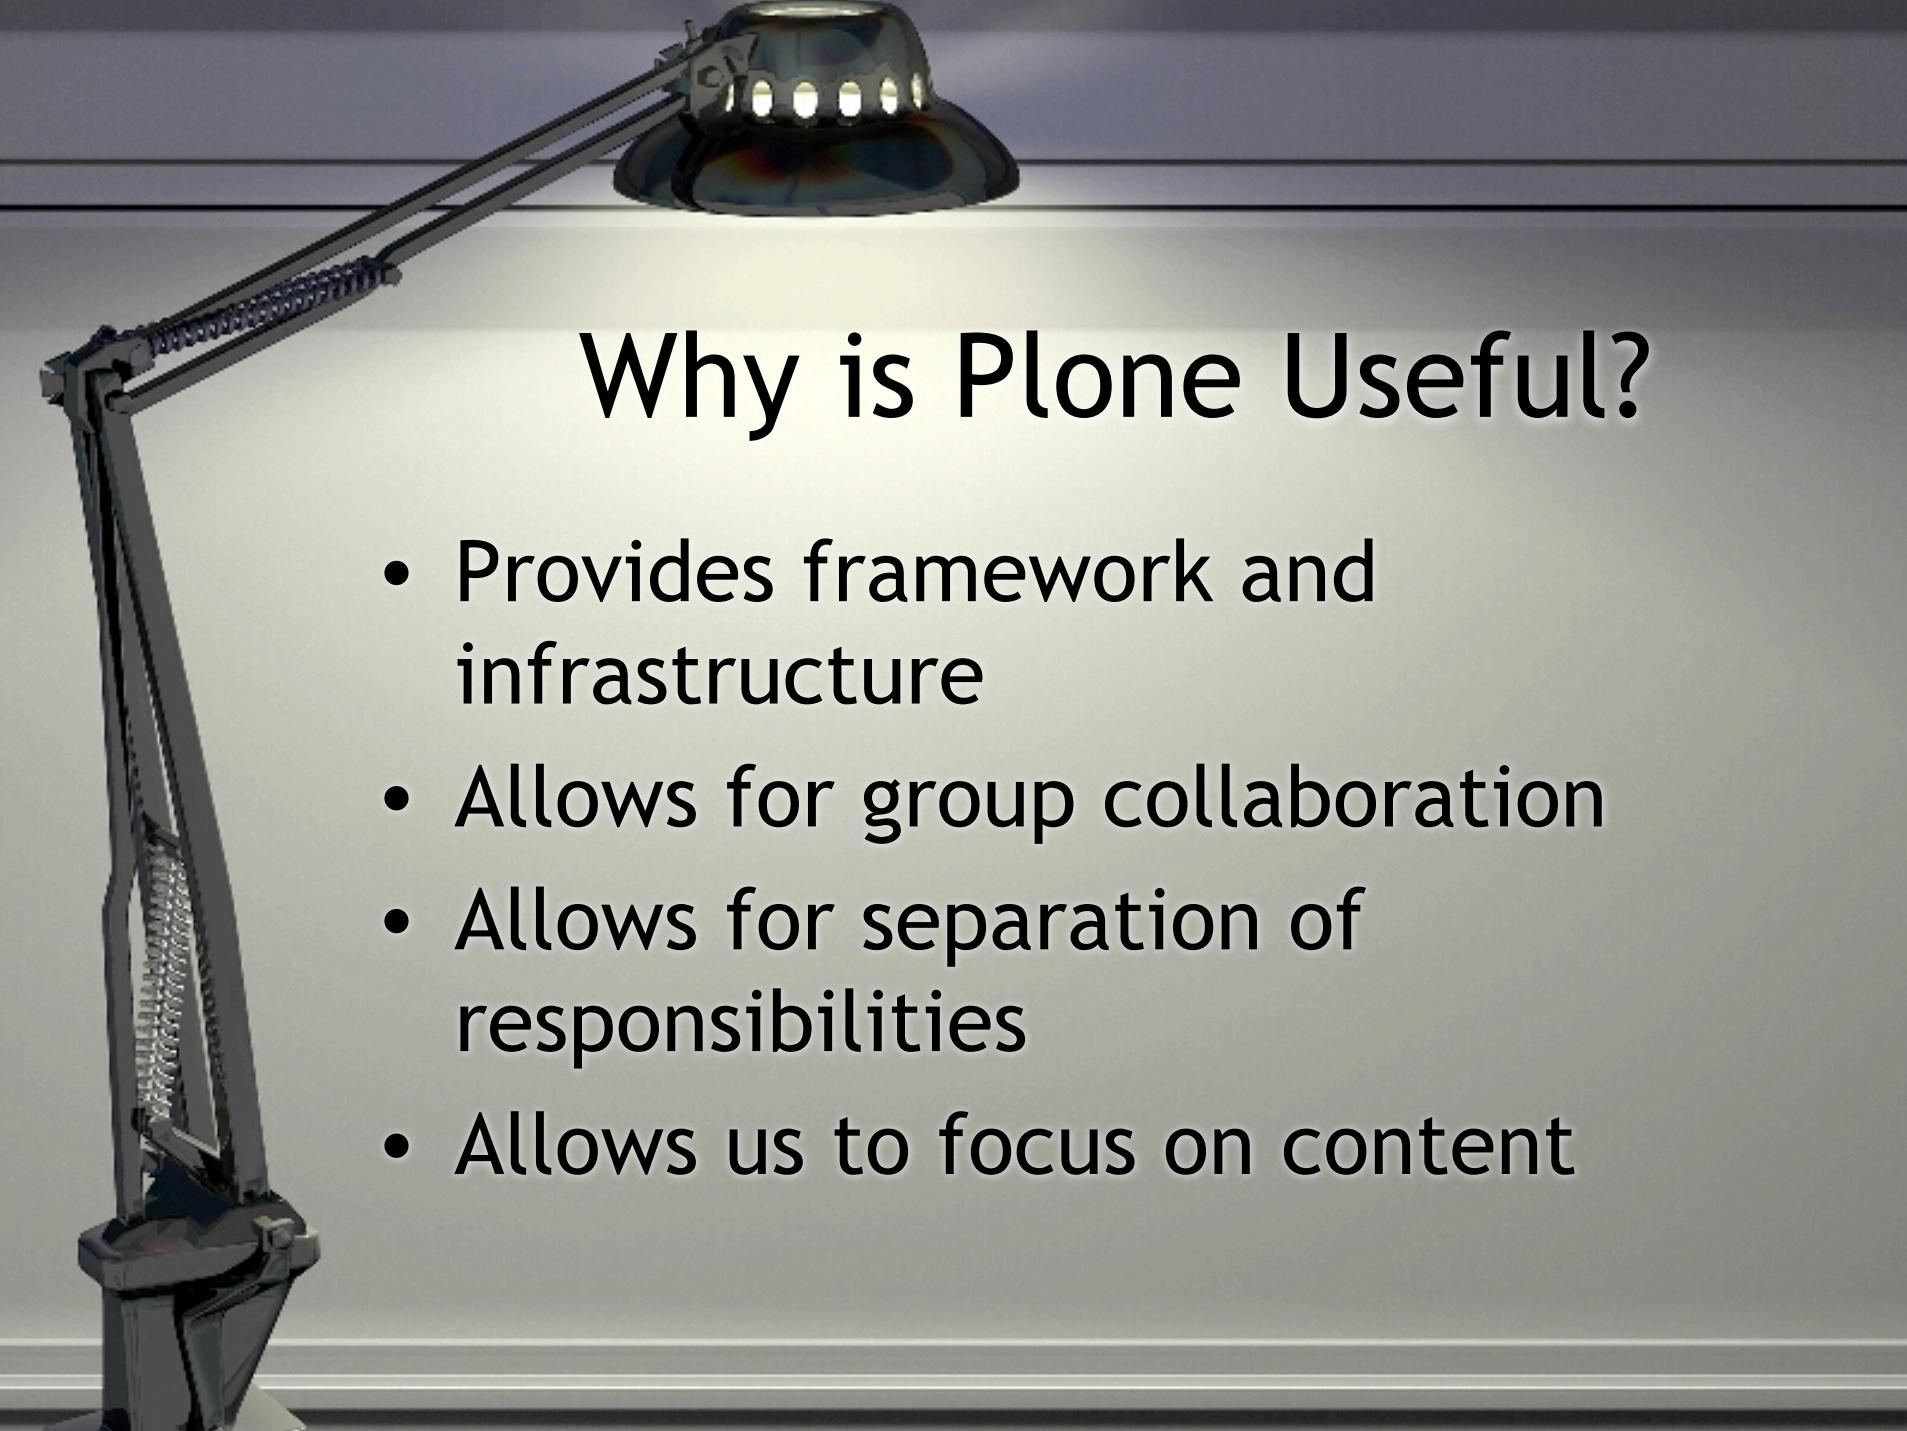

What is Plone, what does KPLUG  
use it for, why should I care and  
how can I contribute?

A desk lamp with a large, adjustable head and a long, thin neck is positioned on the left side of the frame. Its light is directed towards the center of the slide, casting a bright glow on the text and creating a soft shadow on the wall behind it. The lamp has a dark, metallic finish.

# What is Plone?

(from <http://www.plone.org>)

- Content Management System (CMS)
- Powerful and Flexible
- Easy to Use
- Standards-compliant
- Open Source (hooray!)
- Extensible
- Much more...

A desk lamp with a large, adjustable arm and a multi-directional head is positioned on the left side of the frame. The lamp is illuminated, casting a bright glow on the white surface of a presentation slide. The slide features a dark grey header and footer bar. The main title 'Why is Plone Useful?' is centered in a large, bold, black sans-serif font. Below the title, there is a bulleted list of five reasons, also in a large black font.

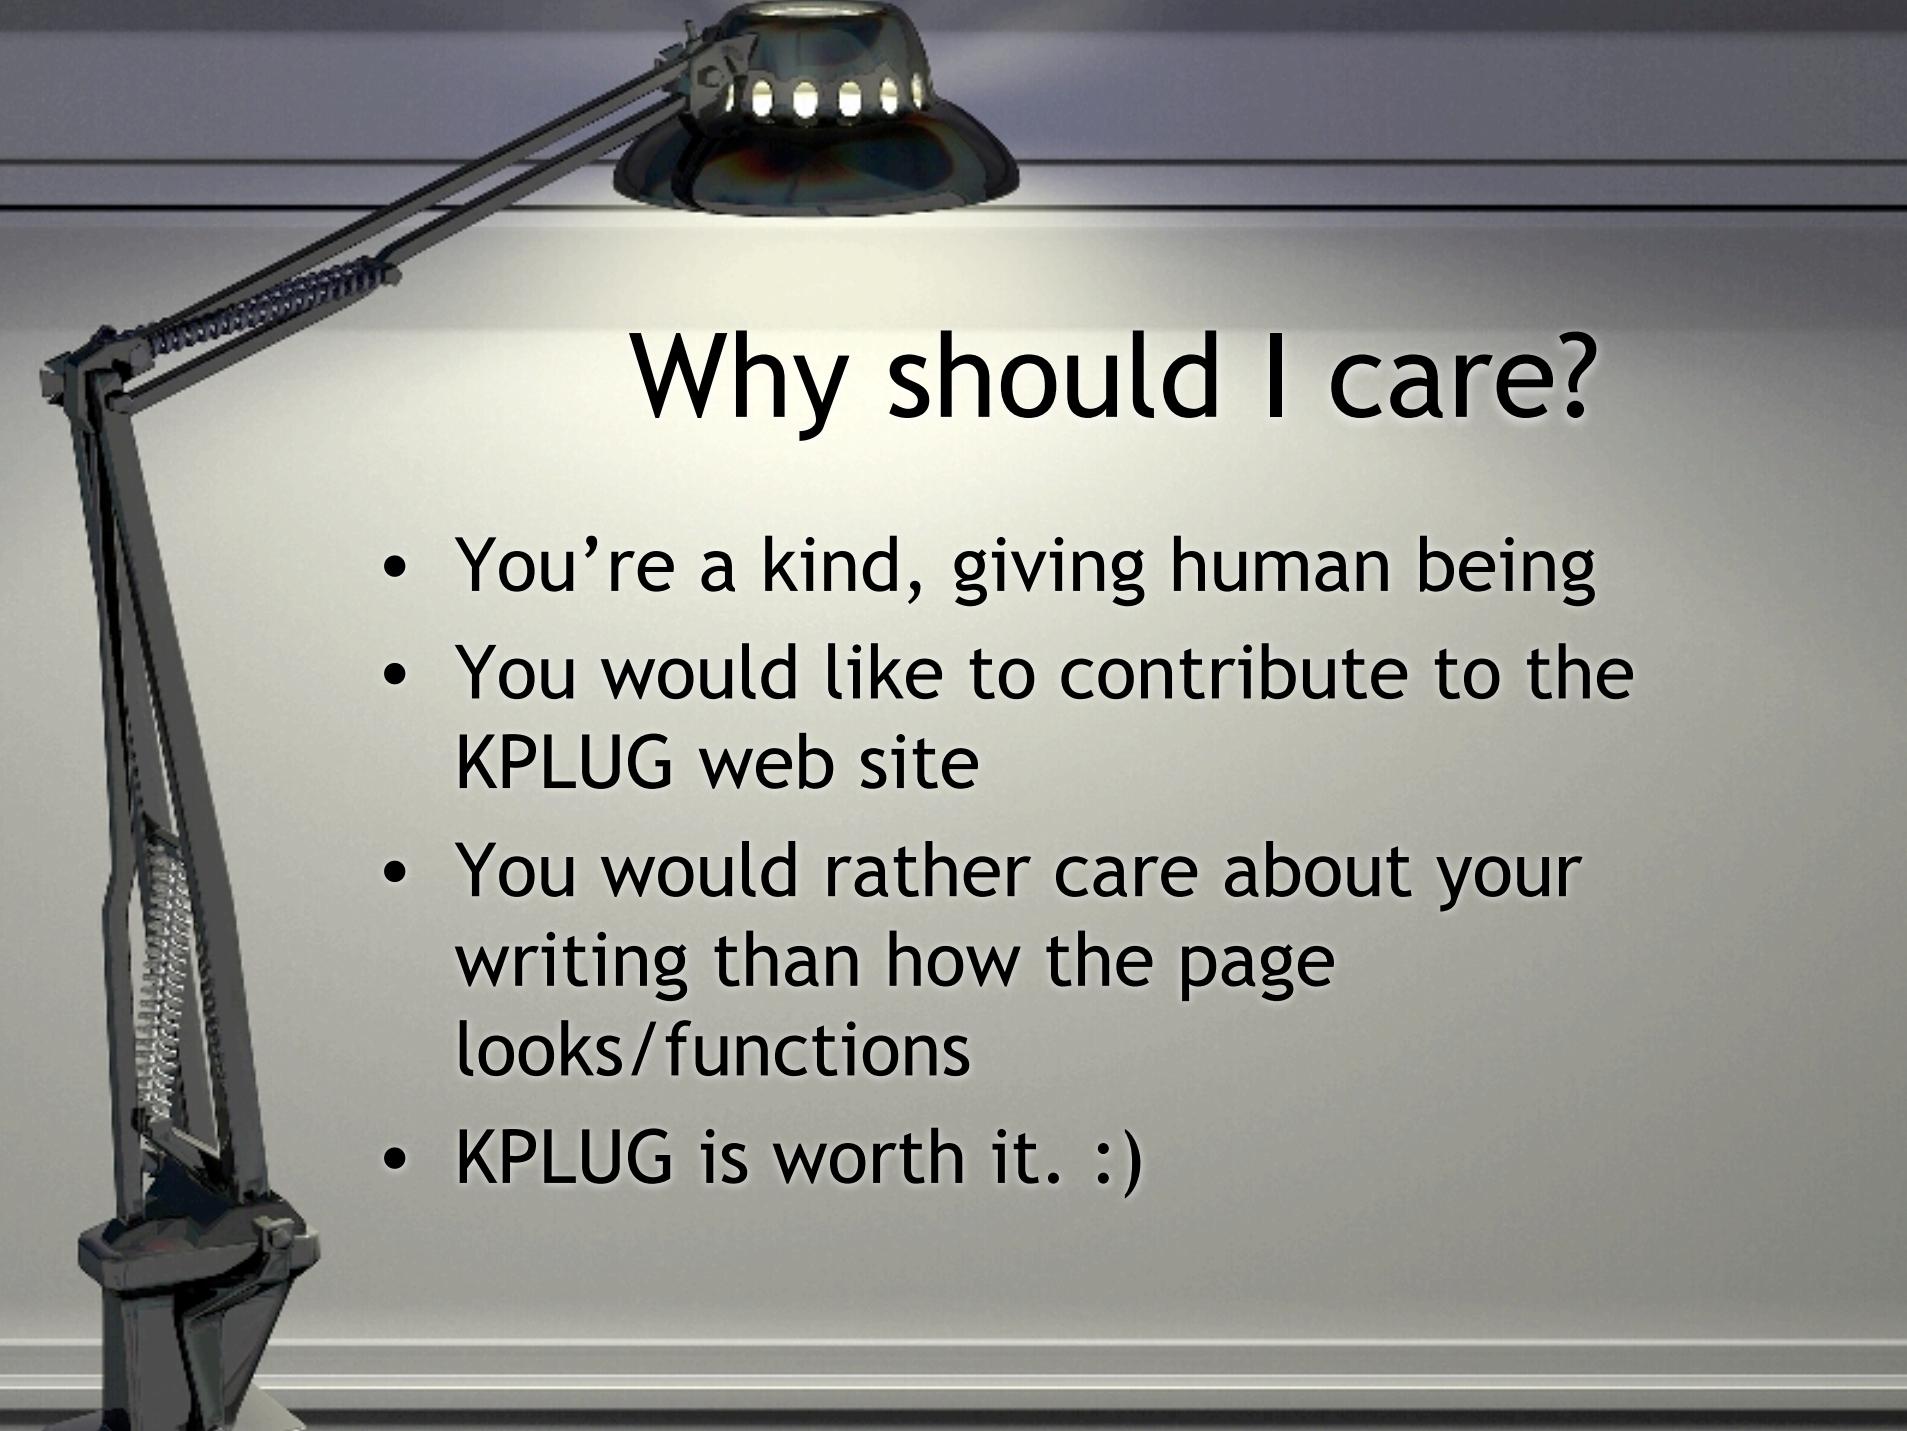

# Why is Plone Useful?

- Provides framework and infrastructure
- Allows for group collaboration
- Allows for separation of responsibilities
- Allows us to focus on content

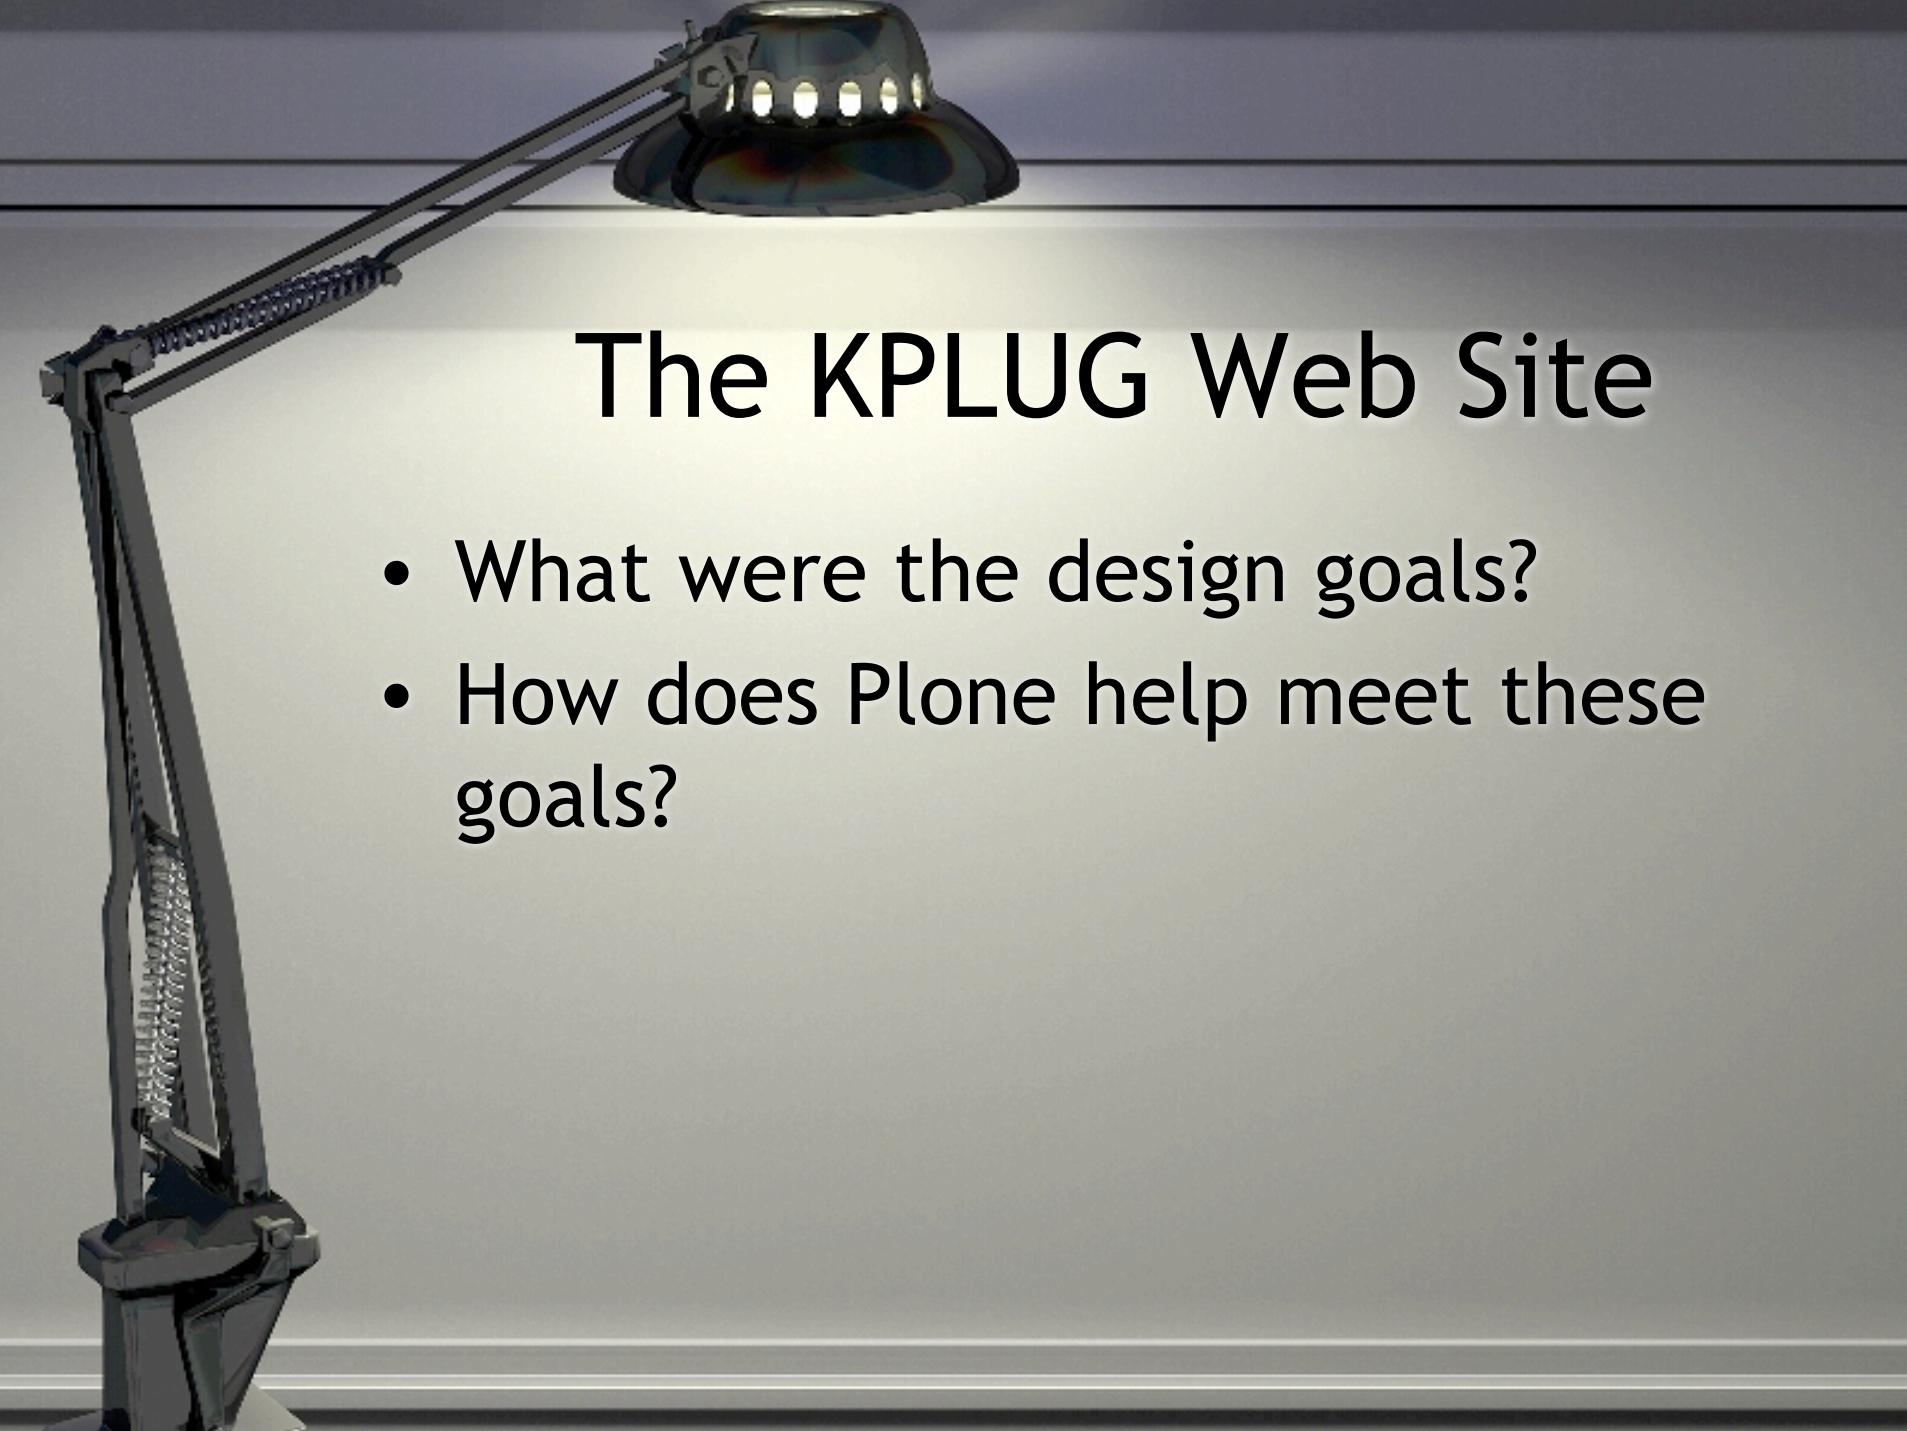

# What does KPLUG use Plone for?

- The KPLUG web site  
(<http://www.kernel-panic.org>)
- News and Announcements
- KPLUG Events
- Book Reviews
- Photo galleries
- Wiki pages

A desk lamp with a large, adjustable arm and a multi-directional head is positioned on the left side of the frame. The lamp is illuminated, casting a bright light onto a white surface where the text is displayed. The background is a dark, solid color.

# Why should I care?

- You're a kind, giving human being
- You would like to contribute to the KPLUG web site
- You would rather care about your writing than how the page looks/functions
- KPLUG is worth it. :)

A desk lamp with a large, adjustable arm and a multi-directional head is positioned on the left side of the frame. The lamp is illuminated, casting a bright light onto a white presentation slide. The slide features a dark grey header and footer bar. The main content area contains the title 'The KPLUG Web Site' in a large, bold, black sans-serif font, followed by a bulleted list of two items.

# The KPLUG Web Site

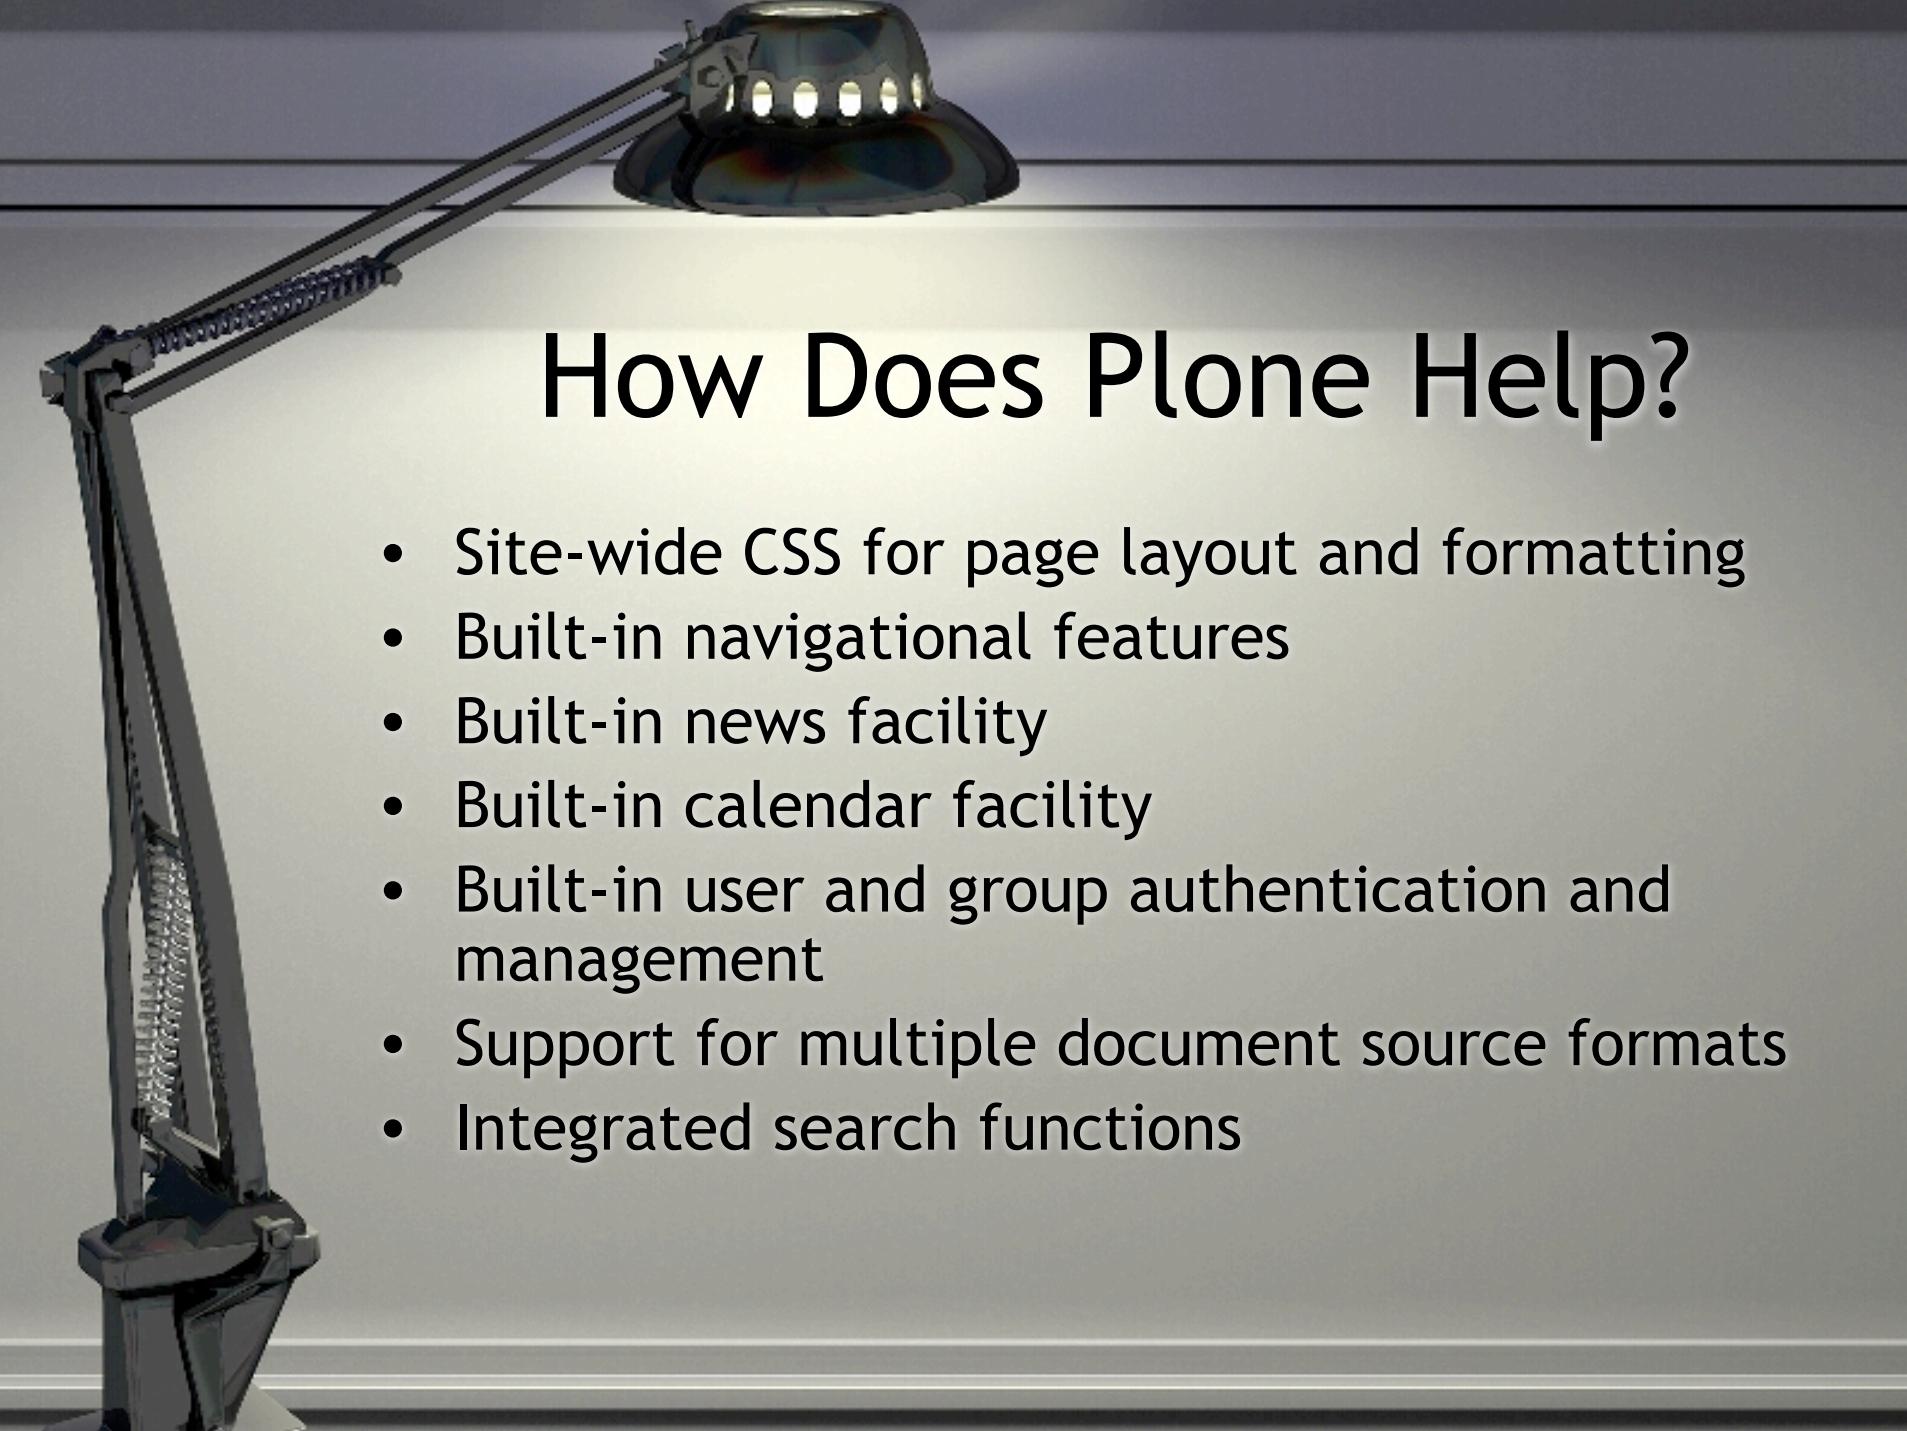

- What were the design goals?
- How does Plone help meet these goals?

- What were the design goals?
- How does Plone help meet these goals?

A desk lamp with a large, adjustable head and a warm glow is positioned on the left side of the frame, illuminating a white presentation slide. The slide features a dark grey header and footer bar. The main content area contains the title 'KPLUG Site Design Goals' and a bulleted list of five items.

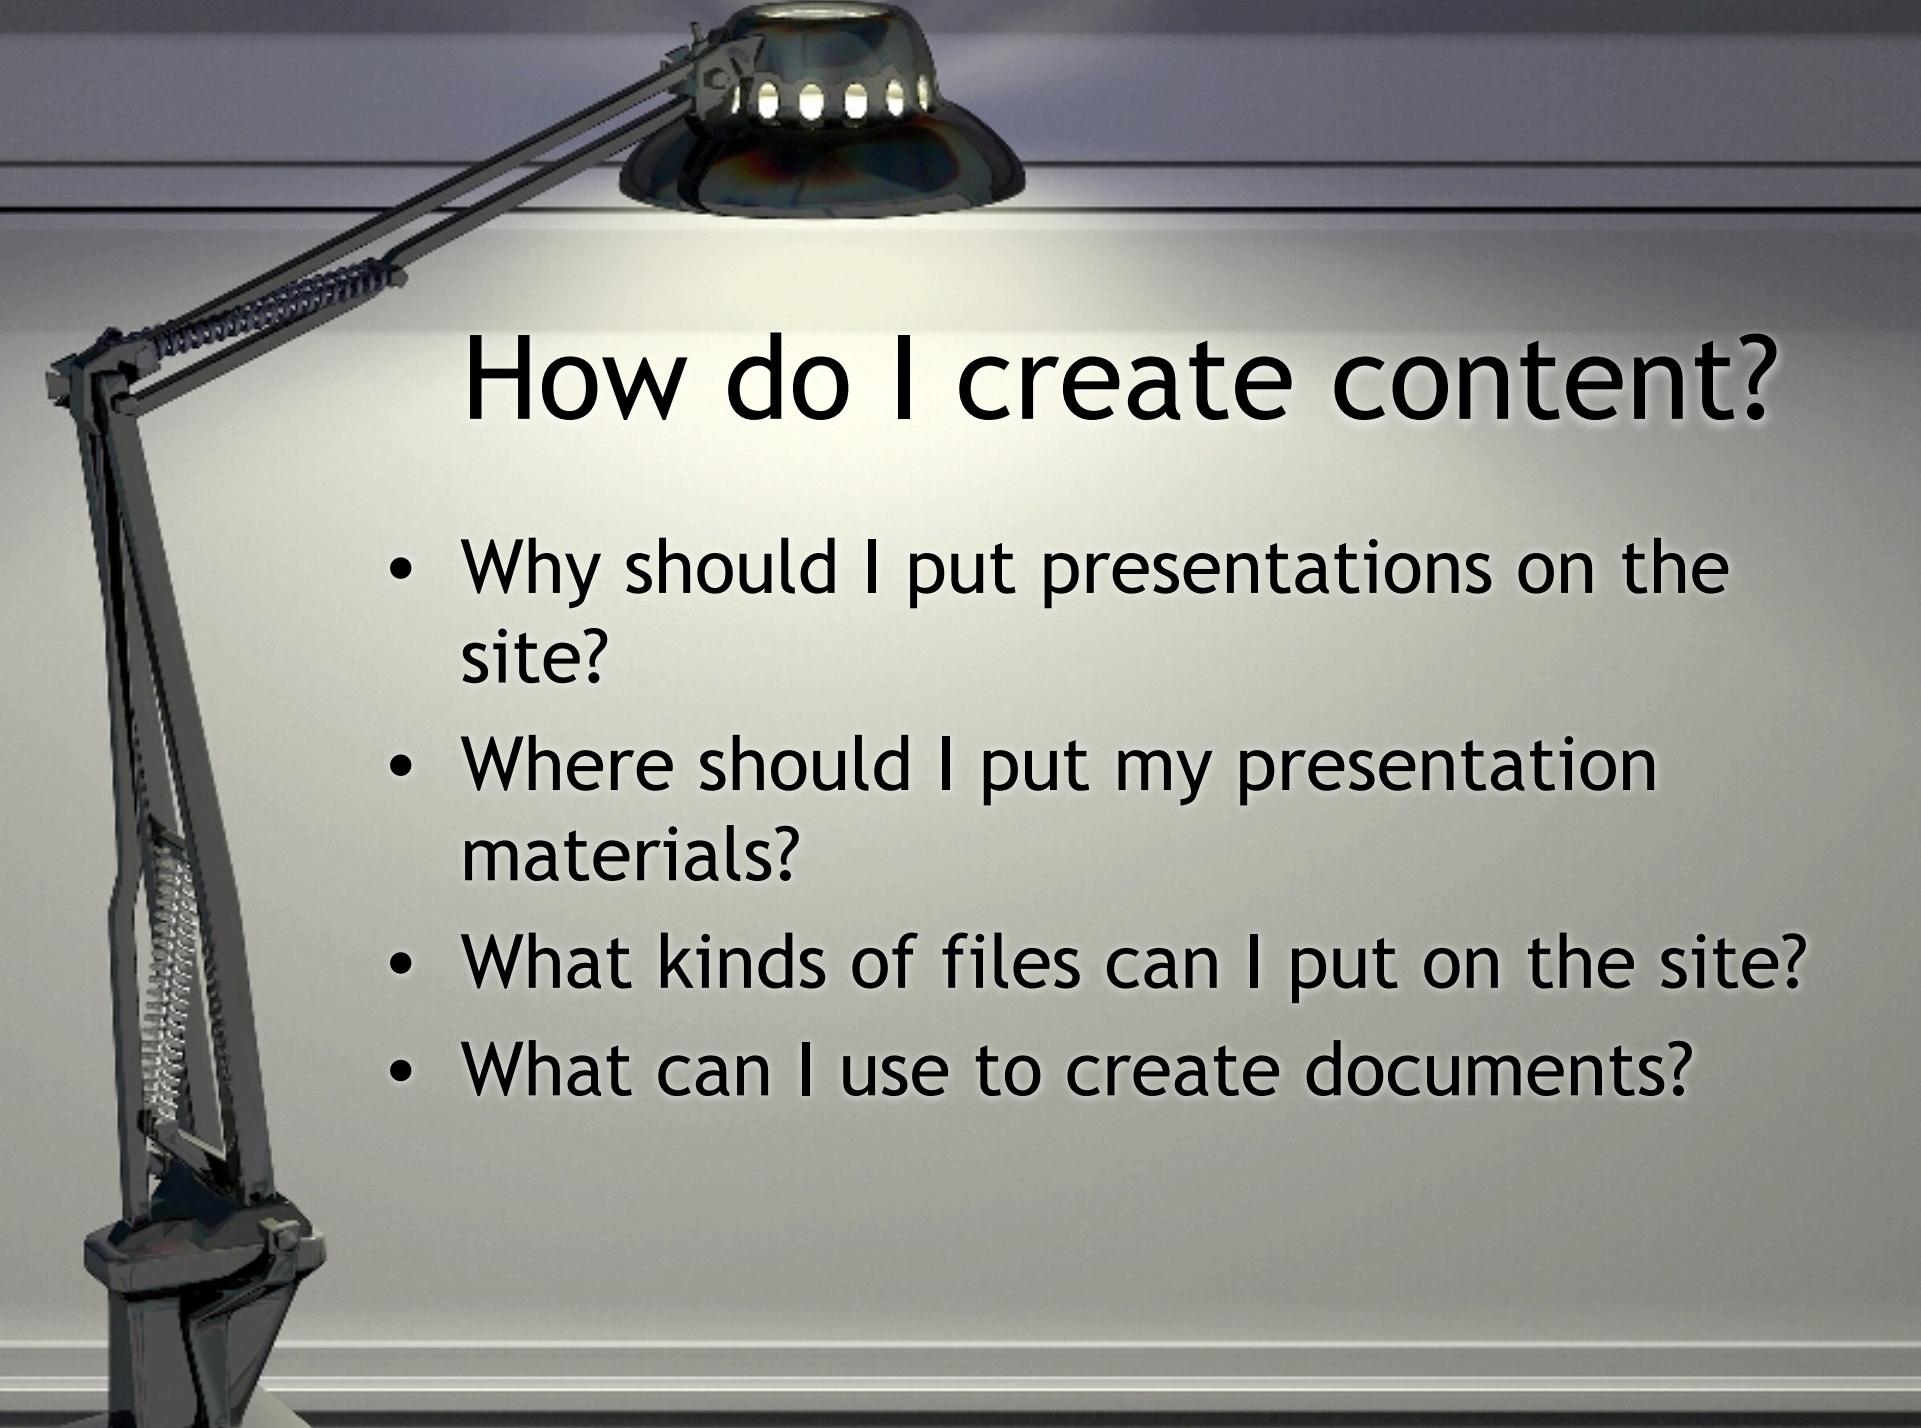

# KPLUG Site Design Goals

- Clean, easy to read site
- Consistent design, layout, formatting
- Easy to navigate
- Single point of access for all KPLUG information

A desk lamp with a large, adjustable head and a warm glow is positioned on the left side of the frame, illuminating a white presentation slide. The slide features a dark grey header and footer bar. The main content area contains a large, bold title and a bulleted list of features.

# How Does Plone Help?

- Site-wide CSS for page layout and formatting
- Built-in navigational features
- Built-in news facility
- Built-in calendar facility
- Built-in user and group authentication and management
- Support for multiple document source formats
- Integrated search functions

A desk lamp with a large, adjustable arm and a multi-directional head is positioned on the left side of the frame. The lamp is illuminated, casting a bright glow on a white presentation slide. The slide features a large, bold title and a bulleted list of questions about creating content.

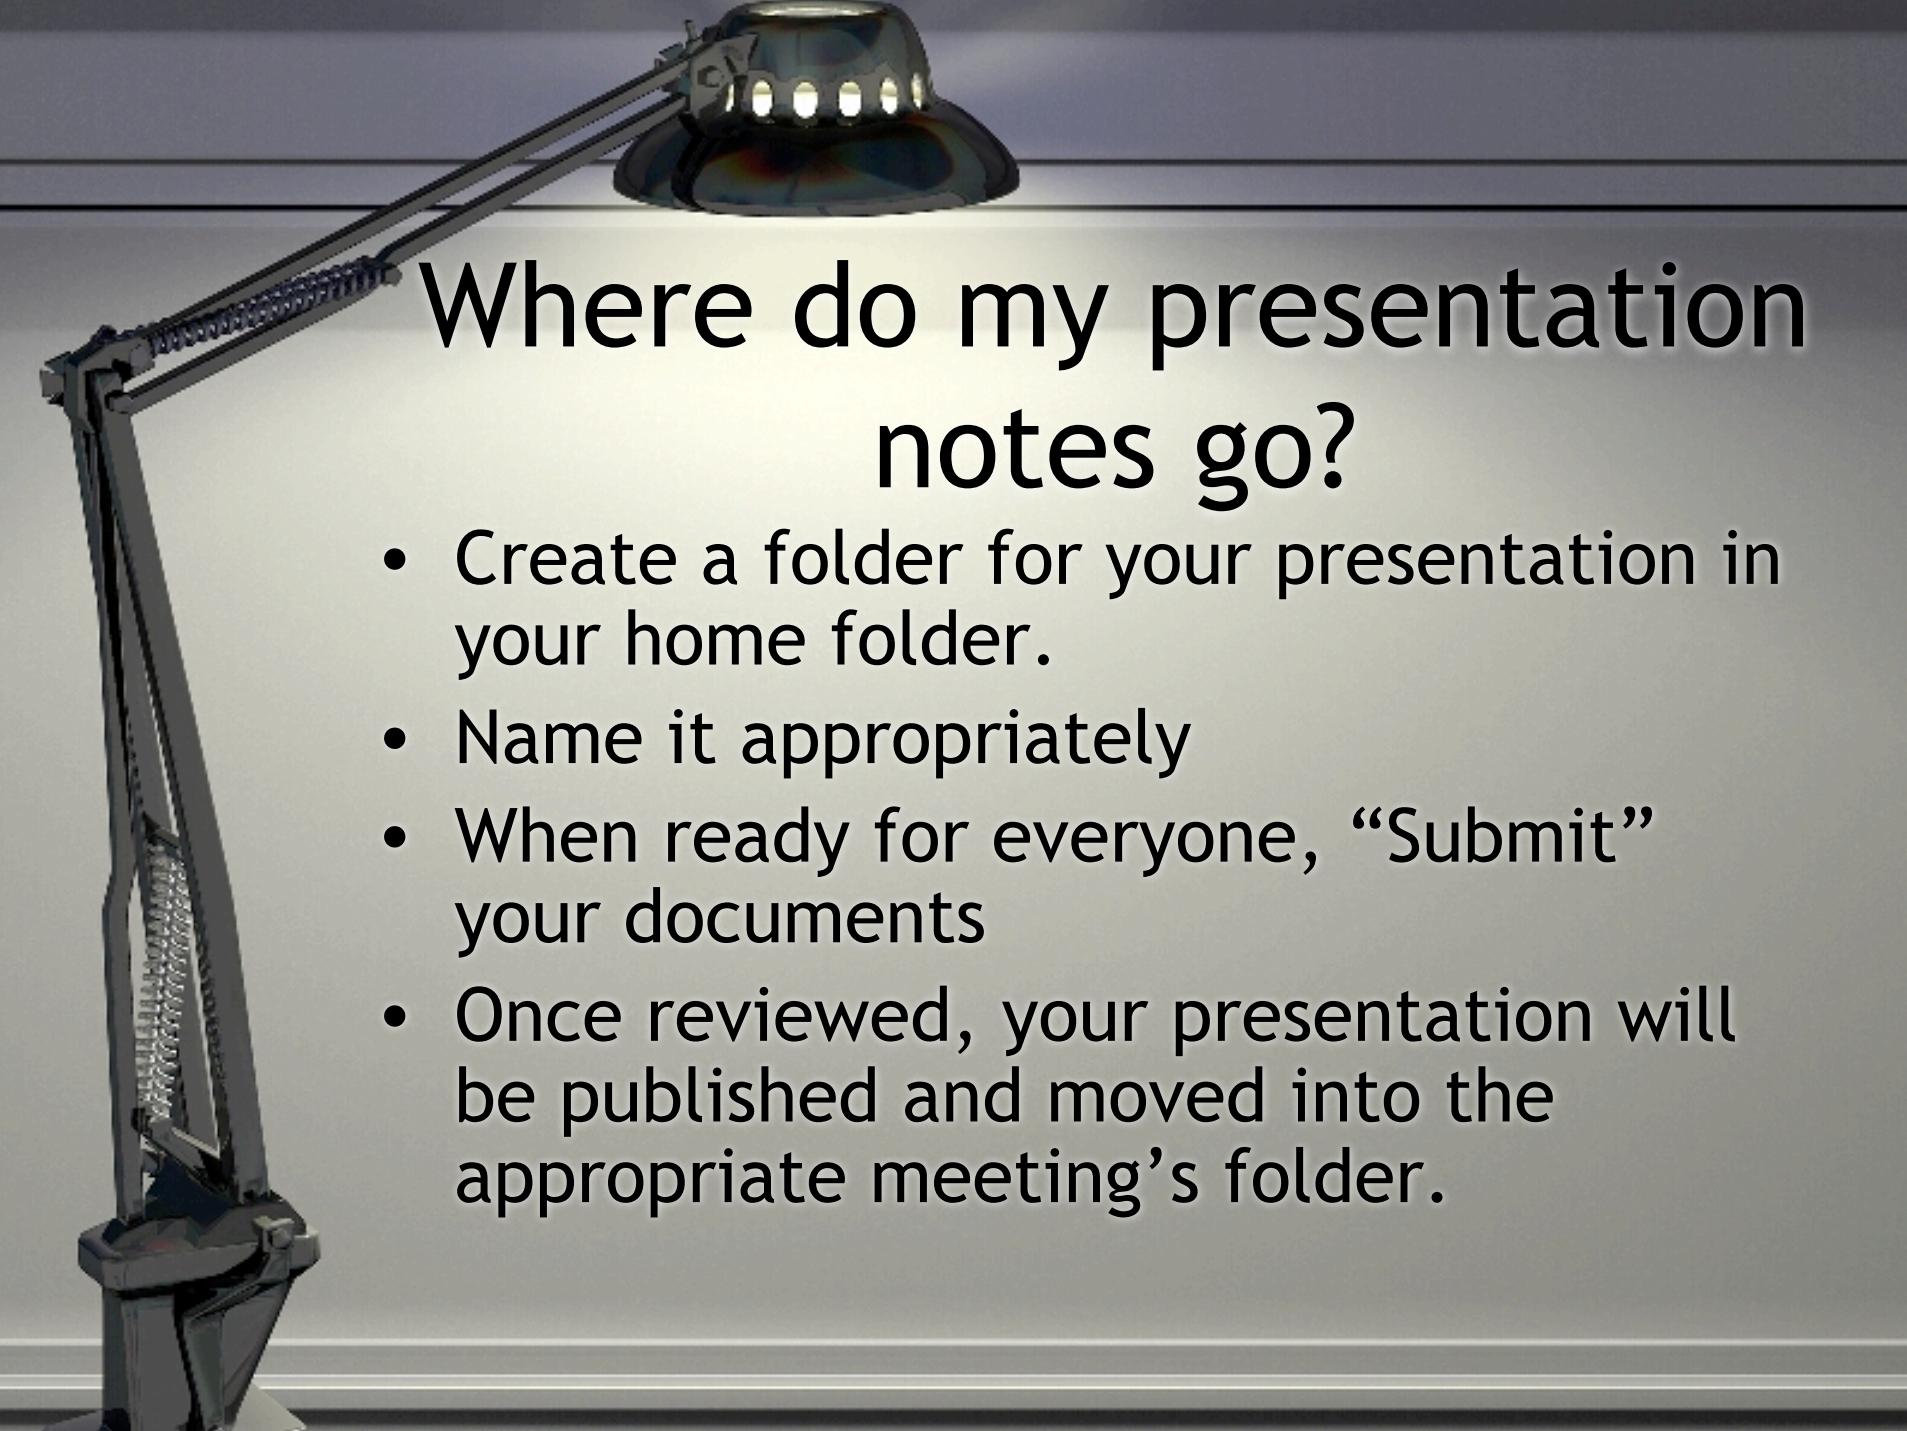

# How do I create content?

- Why should I put presentations on the site?
- Where should I put my presentation materials?
- What kinds of files can I put on the site?
- What can I use to create documents?

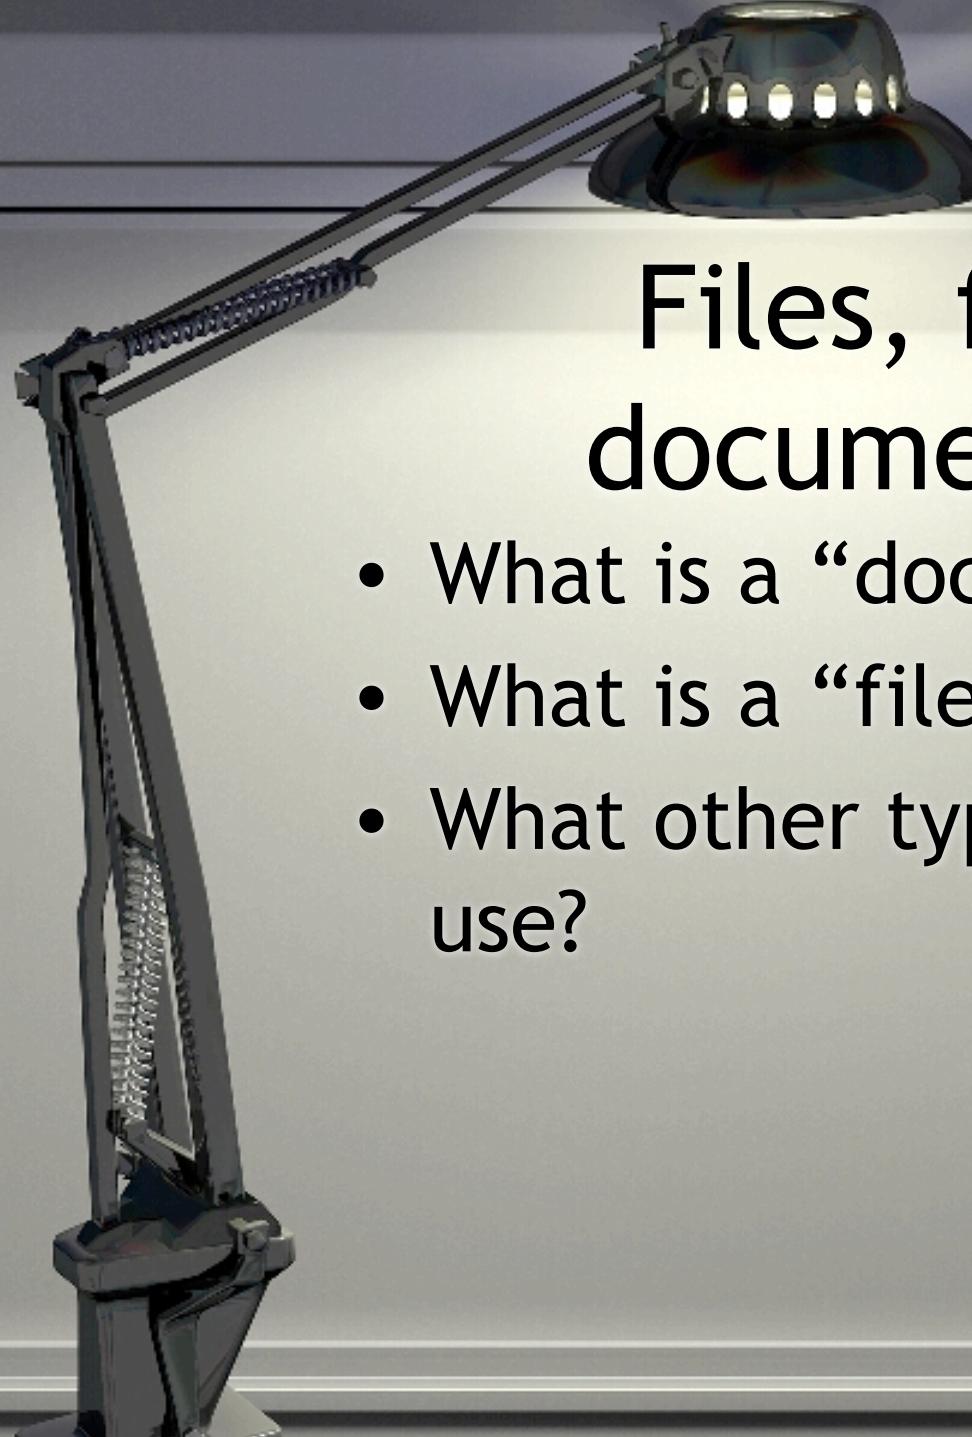

# Why upload presentations?

- Your notes may be useful to members who didn't catch everything at the meeting.
- Your notes will be useful to those who could not attend.
- Your notes help contribute to the informational resource the KPLUG site should be.
- It's just nice.

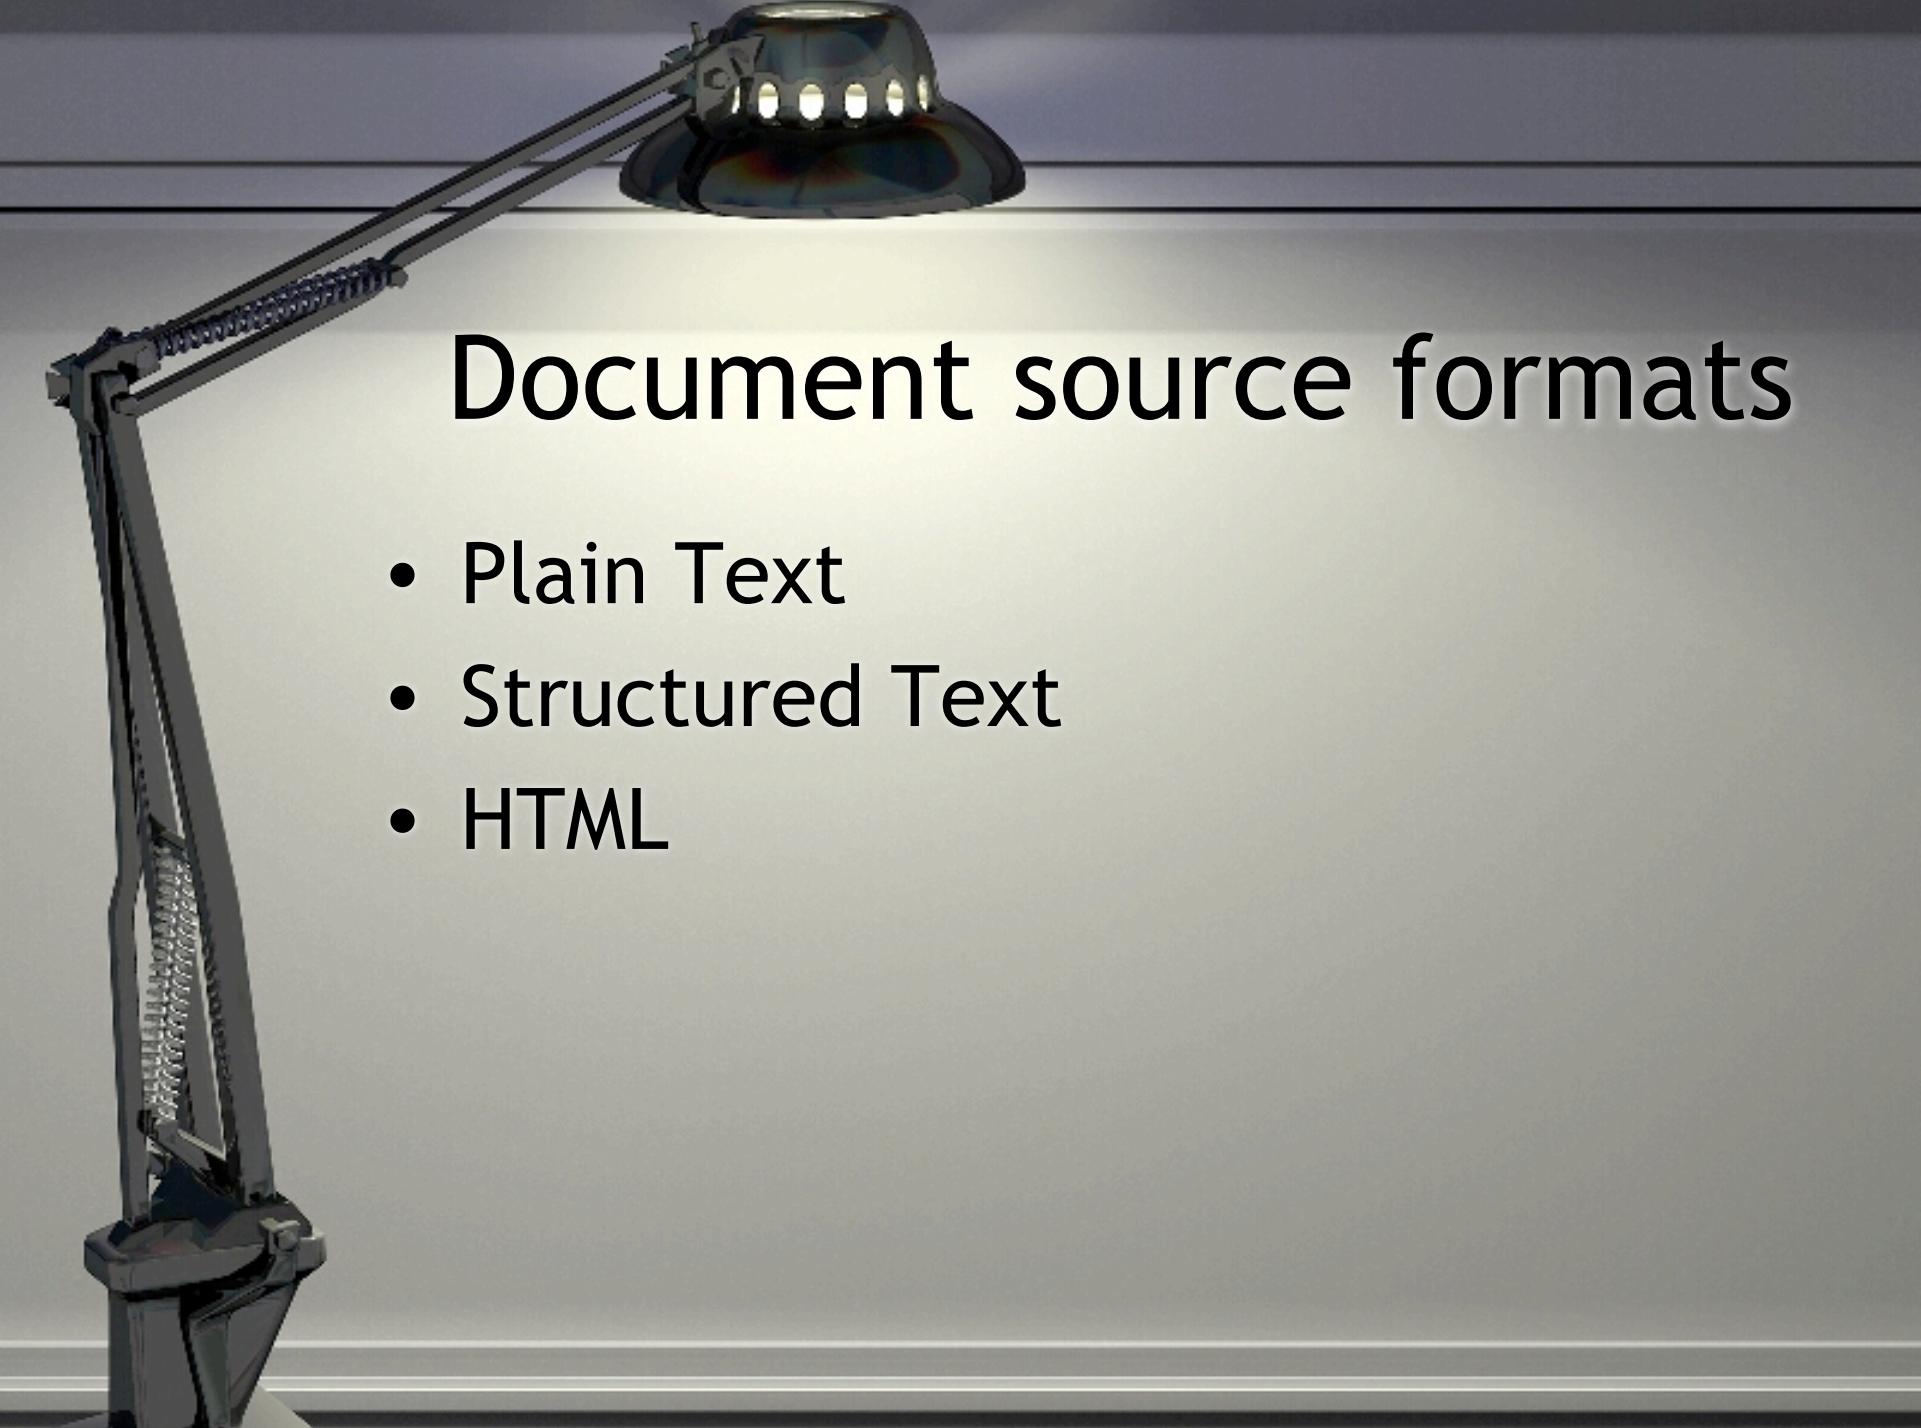

# Where do my presentation notes go?

- Create a folder for your presentation in your home folder.
- Name it appropriately
- When ready for everyone, “Submit” your documents
- Once reviewed, your presentation will be published and moved into the appropriate meeting’s folder.

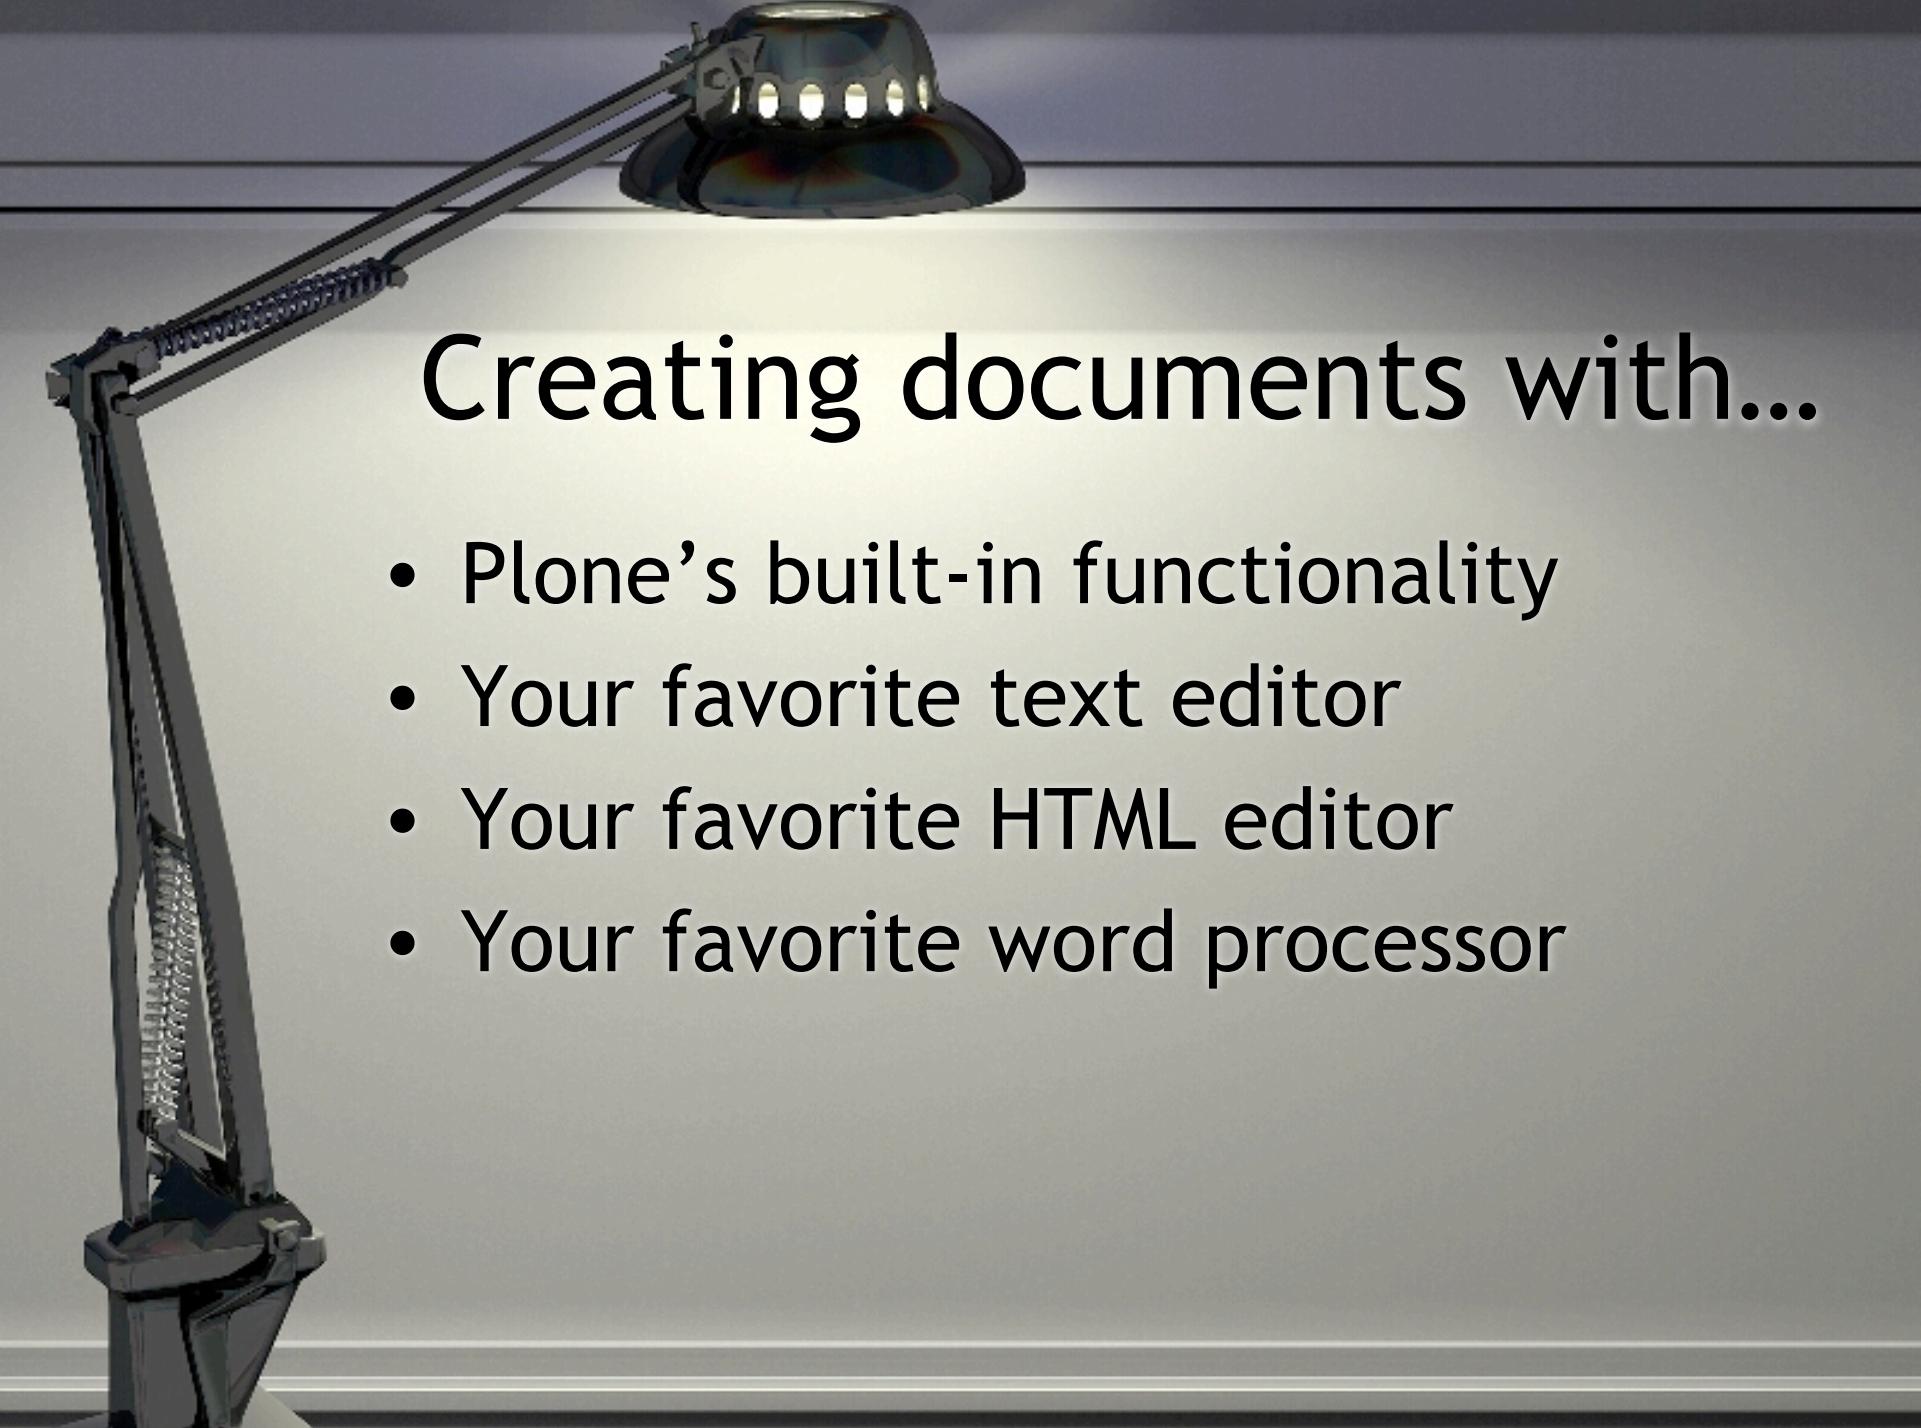

# Files, folders and documents, oh my!

- What is a “document”?
- What is a “file”?
- What other types of content can I use?

A desk lamp with a large, adjustable arm and a multi-directional head is positioned on the left side of the frame. The lamp is illuminated, casting a bright light onto a white surface where the title text is displayed. The background is a dark, solid color.

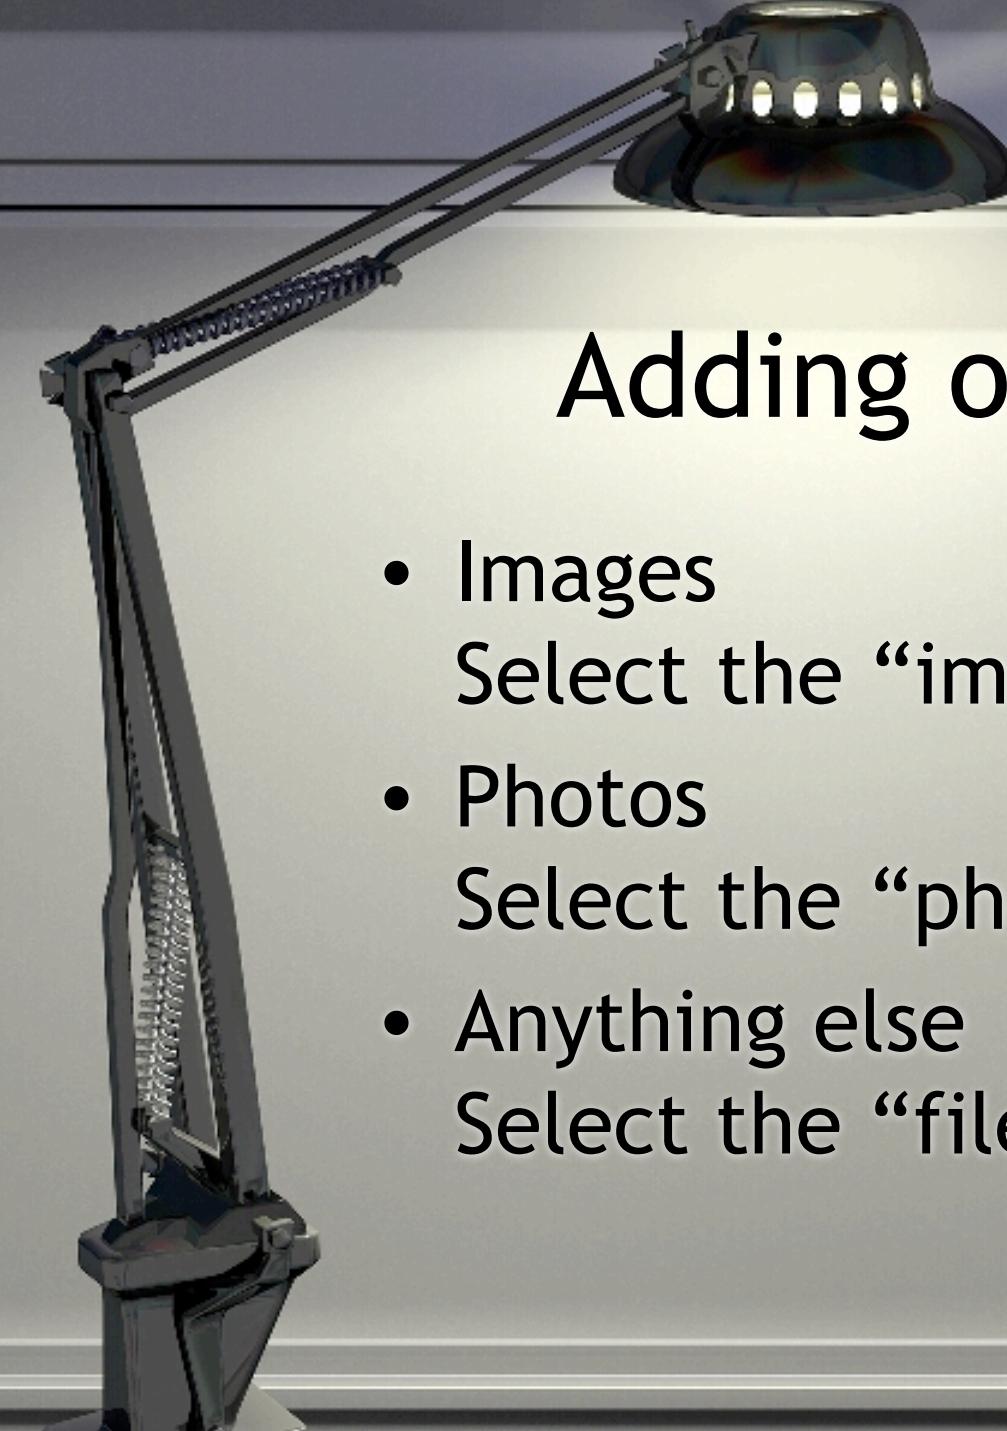

# Document source formats

- Plain Text
- Structured Text
- HTML

A desk lamp with a large, adjustable head and a long neck is positioned on the left side of the frame. Its light is directed towards a white surface, which appears to be a computer monitor or a piece of paper. On this surface, there is some faint, illegible text. The background is a plain, light-colored wall.

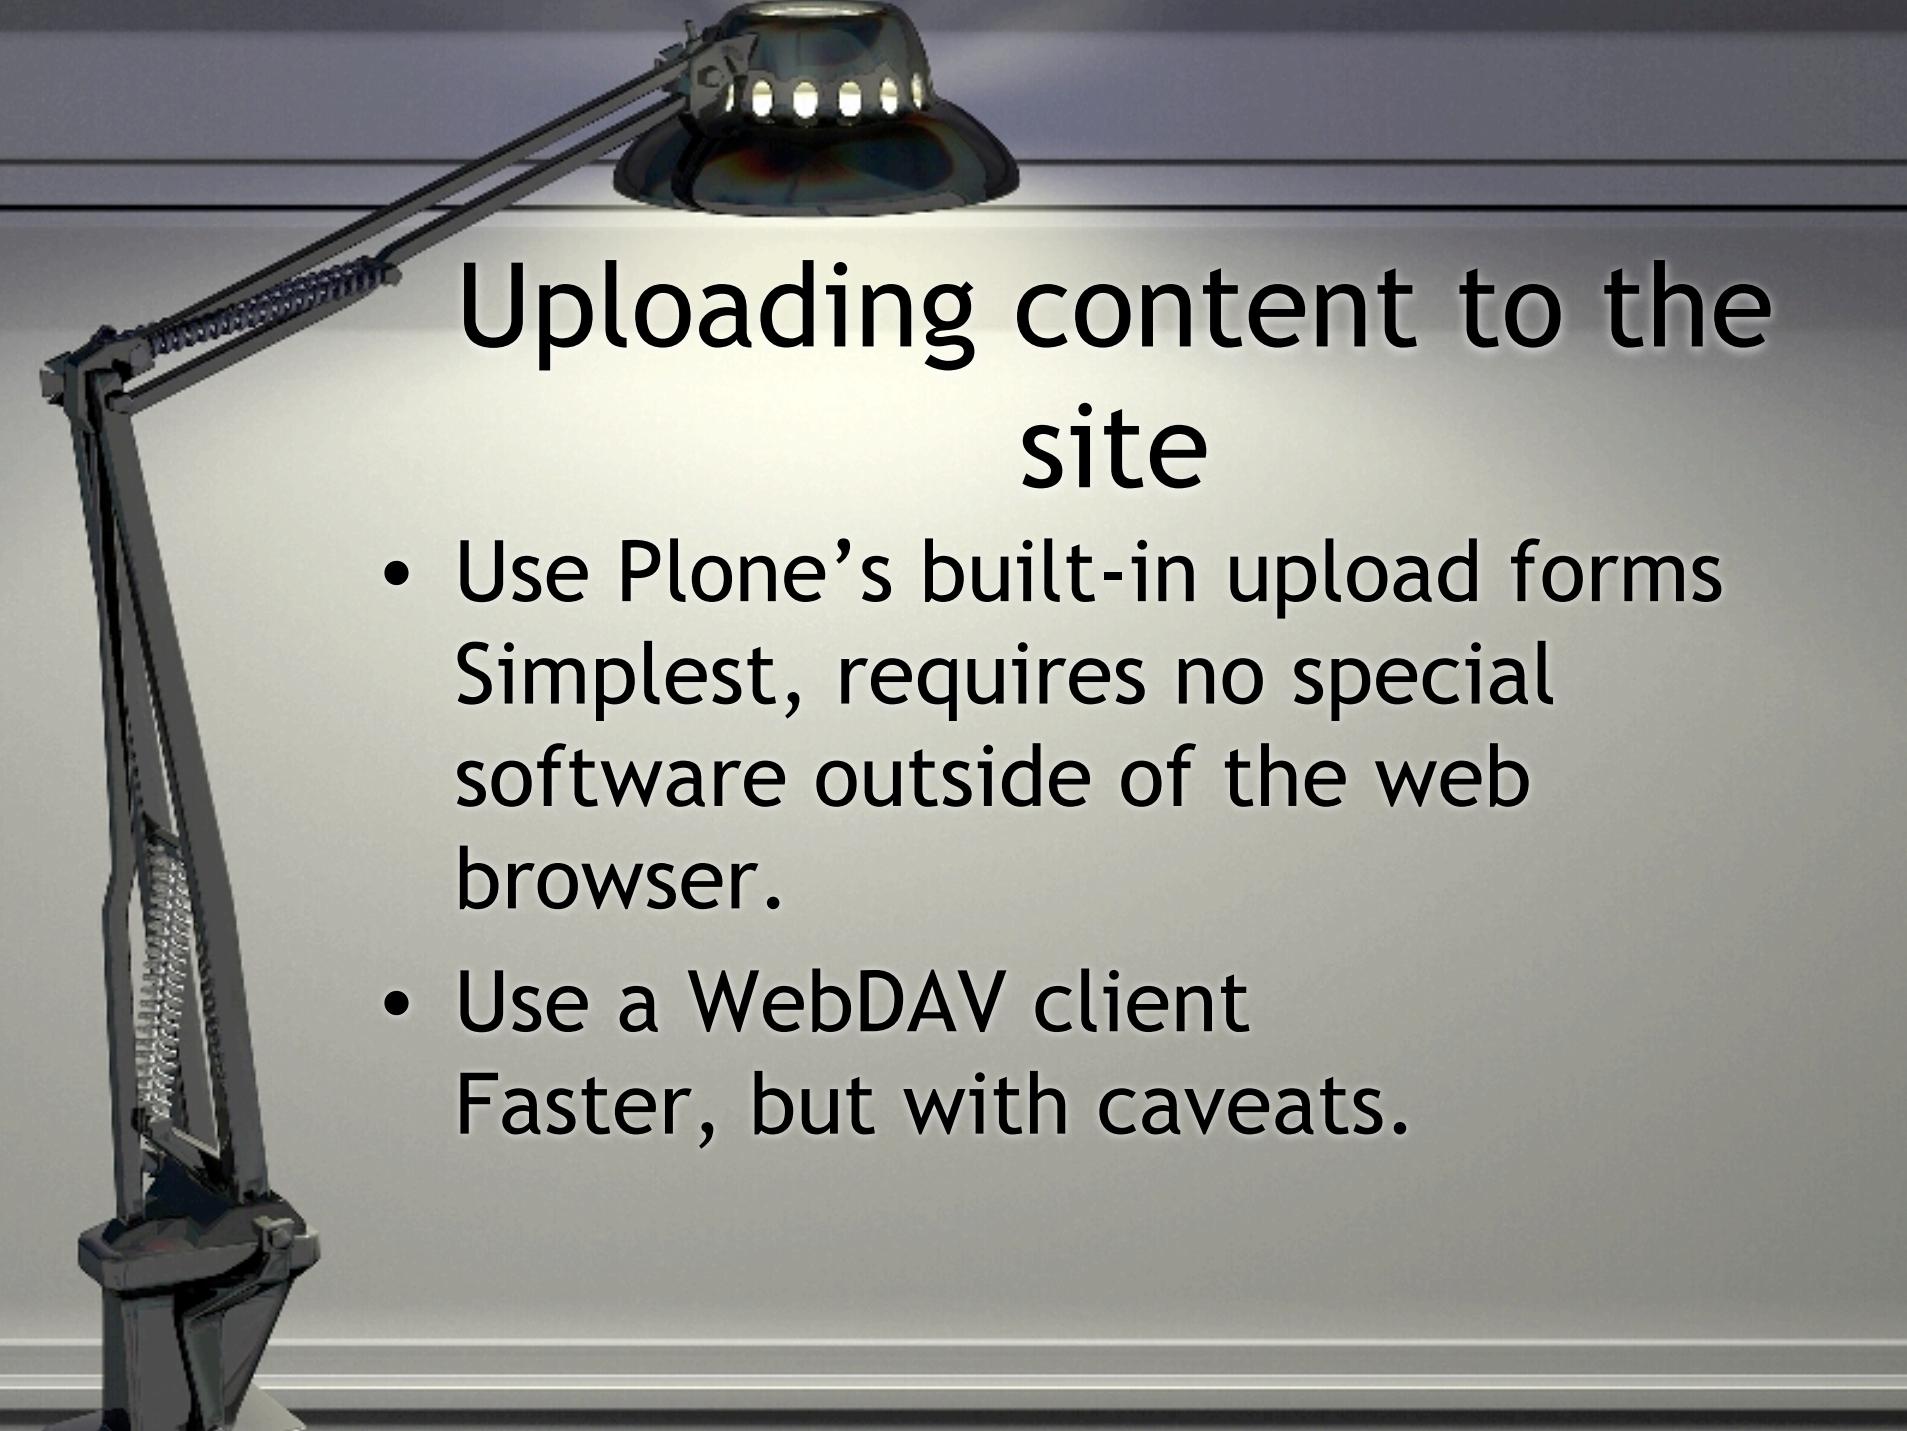

# Creating documents with...

- Plone's built-in functionality
- Your favorite text editor
- Your favorite HTML editor
- Your favorite word processor

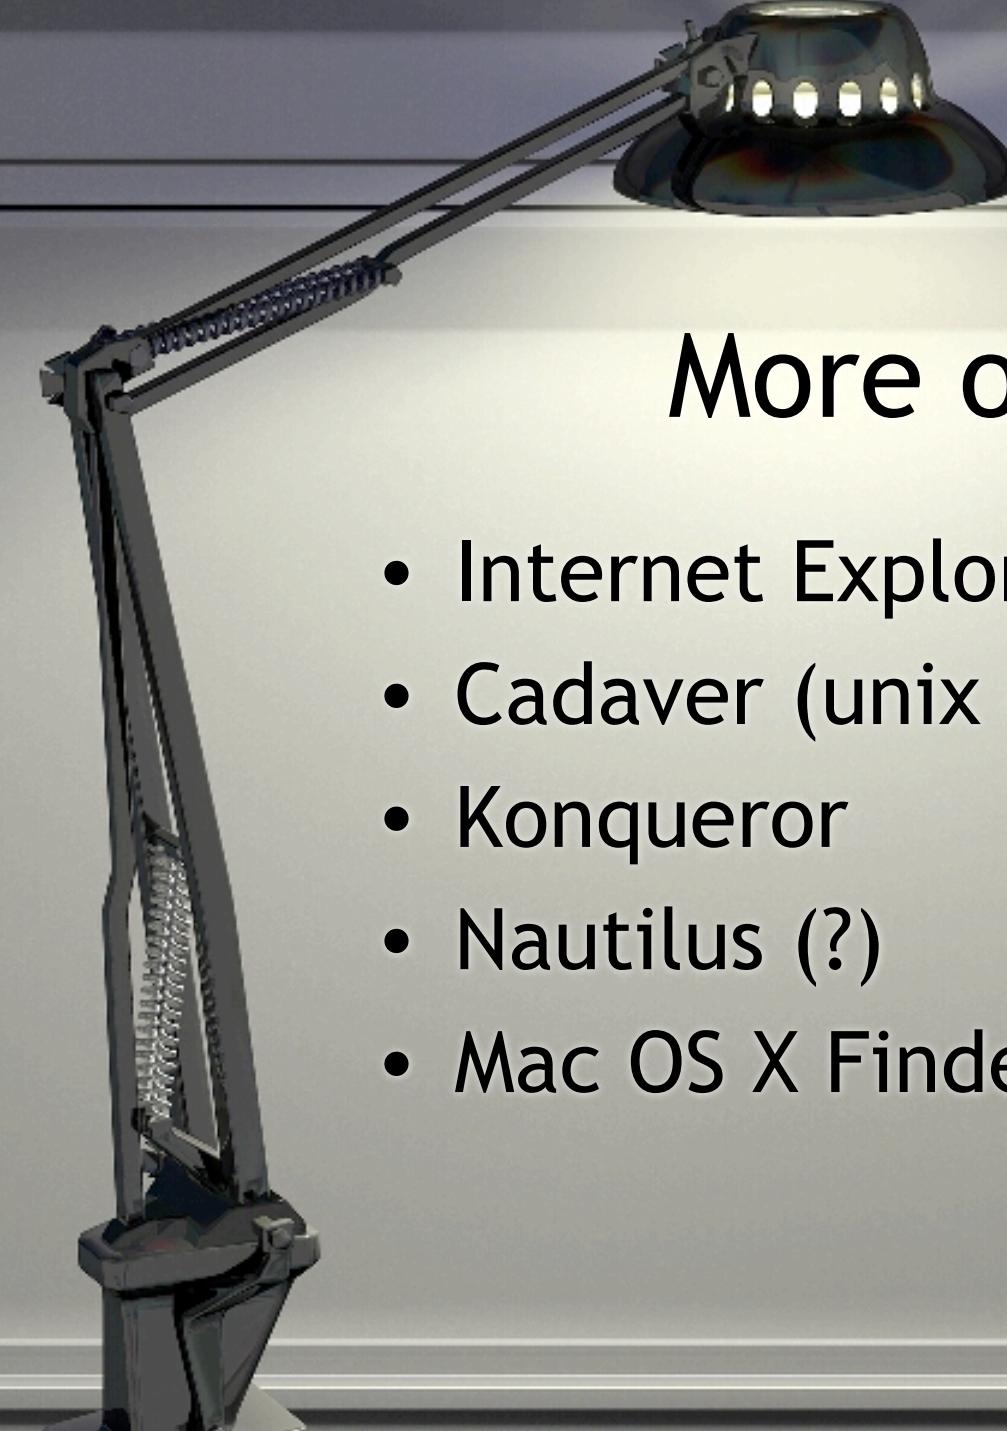

# Adding other content

- Images  
Select the “image” type.
- Photos  
Select the “photo” type.
- Anything else  
Select the “file” type.

# Uploading content to the site

- Use Plone's built-in upload forms  
Simplest, requires no special software outside of the web browser.
- Use a WebDAV client  
Faster, but with caveats.

# More on WebDAV

- Internet Explorer (boo!)
- Cadaver (unix command-line)
- Konqueror
- Nautilus (?)
- Mac OS X Finder

# Site Management

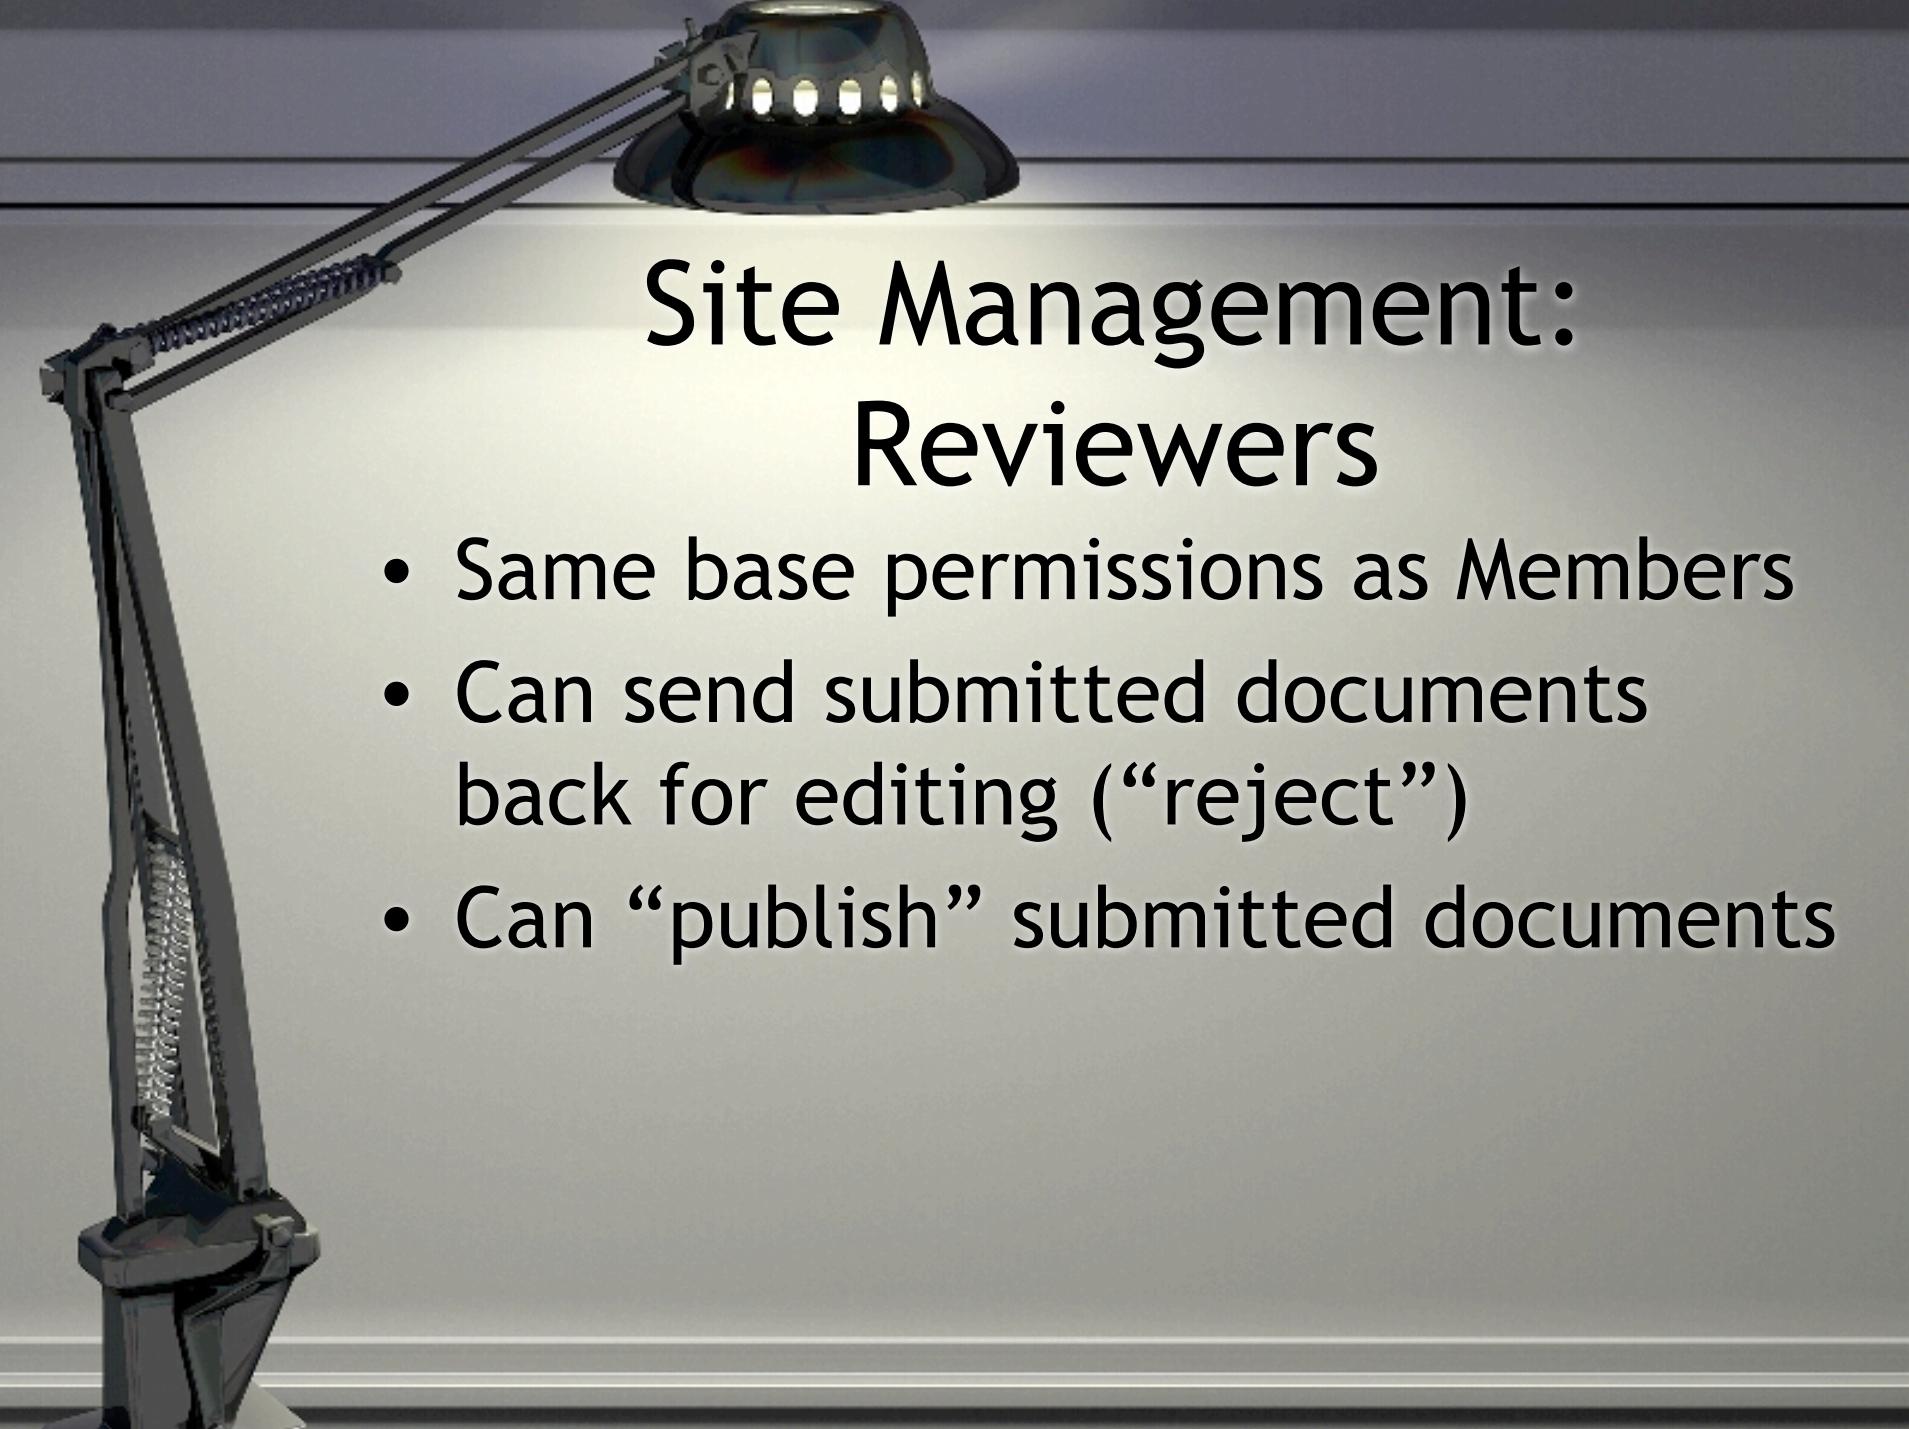

Who/What are:

- Members
- Reviewers
- Managers
- Owners

# Site Management: Members

- Can log in to site
- Can create content in home folders and wiki
- Can create content elsewhere when granted permissions
- Can only “submit” documents for publishing

# Site Management: Reviewers

- Same base permissions as Members
- Can send submitted documents back for editing (“reject”)
- Can “publish” submitted documents

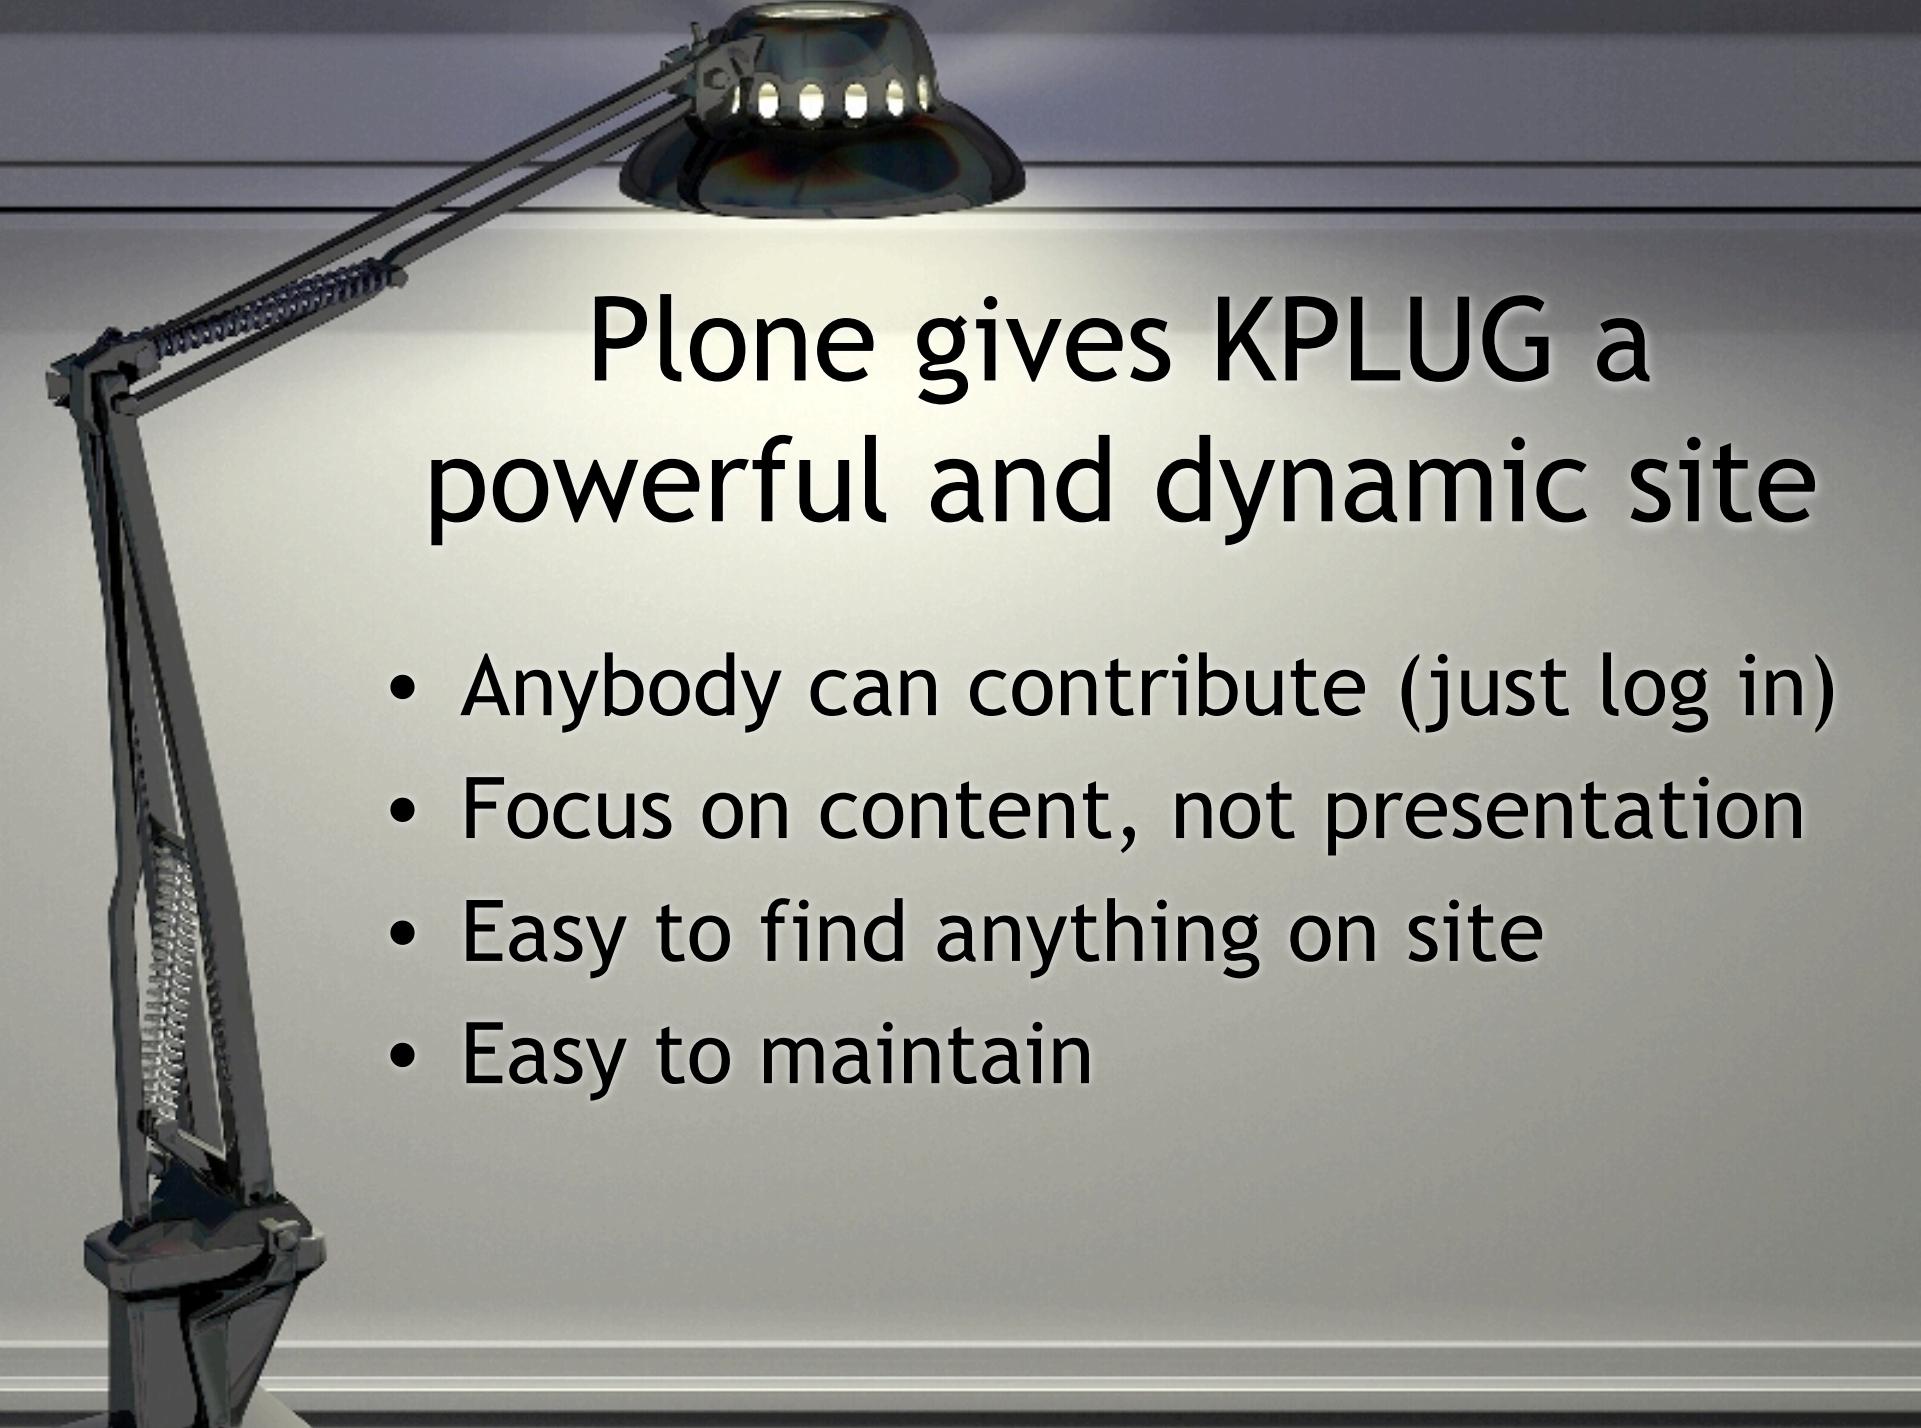

# Site Management: Managers

- Same base permissions as Reviewers
- Can create, move and delete content throughout designated sections of the site

# Zwiki - The KPLUG Wiki

- <http://www.kernel-panic.org/wiki>
- Must be logged in to site to manage Wiki
- Anybody can edit anything on the Wiki
- Anonymous users can only read Wiki

A desk lamp with a large, adjustable head and a warm glow is positioned on the left side of the frame, illuminating a white presentation slide. The slide features a dark grey header bar at the top. Below the bar, the text "Plone gives KPLUG a powerful and dynamic site" is displayed in a large, bold, black sans-serif font.

# Plone gives KPLUG a powerful and dynamic site

- Anybody can contribute (just log in)
- Focus on content, not presentation
- Easy to find anything on site
- Easy to maintain
